COAL STRIKE BEFORE CABINET

Leaders Line Up for 1920 Presidential Battle

ASPIRANTS FOR CHAIR BEGIN TO APPEAR

Politicians Are Arranging For
National Committee
Meetings Soon

**JOHNSON TO RUN AS
"STRAIGHT AMERICAN"**

Democrats Holding Back and
Wilson May Take Part
In Fight

WASHINGTON, Nov. 25.—Rep-
ublicans and Democrats today began
actively organizing for the business of
electing a president of the United
States in 1920.

Leaders were on the ground arrange-
ing for meetings of the Democratic and
Republican national committees here
January 8, and December 10, respec-
tively, to pick convention cities.

Press agents representing the candi-
dates were also beginning to appear,
armed with much literature. An-
nouncements of new candidates were
expected to come thick and fast from
the G. O. P. ranks within a few days,
but the Democrats were holding back.

There were many ideas as to what
the issue would be. Miles Polinder,
senator from Washington, and one
of the first Republican aspirants in
the field, declared it would be bol-
shevism and that he would make his
fight on a platform promising eradica-
tion of the "red" menace.

Peace Treaty Issue.
Senator Lodge's expressed willing-
ness to go to the country with the
peace treaty as an issue made it ap-
pear that he had presidential aspira-
tions himself.

Senator Harding, Ohio, also a candi-
date, has not yet announced his con-
ception of what the principal point of
contention between the major parties
will be.

Senator Johnson is understood to be
planning his race on a "straight
American" platform.

Some of the candidates who loom
biggest, such as Governor Lowden of
Illinois and General Wood, have not
entered the battle of press agents
here as yet, the inference being they
are holding back until the situation is
a little more clarified.

As for the Democrats, the fact that
none has come out for the candidacy
gave strength to a report here that
President Wilson in spite of all infor-
mation to the contrary, has not yet
made up his mind with regard to mak-
ing a third term effort.

With the treaty out of the way,
there is little doubt that, in view of
his illness and his weariness of pub-
lic life, he would be willing to step
aside and not even participate active-
ly in the campaign. But if the treaty
is to be the issue, the president may
deem it his duty either to head the
ticket which supports ratification or
take a prominent part in naming the
leader and fighting for his election.

W. G. McAdoo was seen today as
bidder for labor support if he becomes
a candidate, in view of his telegram
to Fuel Administrator Garfield, vigor-
ously supporting the miners wage de-
mands and opposing the idea of let-
ting the public pay the increase. But
McAdoo has not avowed his intentions,
and the other Democratic possi-
bilities, including Governor Cox and
A. Mitchell Palmer, are keeping very
quiet.

W. J. Bryan, although he has said
he has no more political ambitions, is
frequently brought into the situation
when the Democratic aggregation is
being looked over.

There was some talk today of

BANK DEPOSITS SHOW BIG GAINS

Discover Plot To
Overthrow Soviet
Rule In Petrograd

LONDON, Nov. 25.—A wide-
spread plot to overthrow the soviet
government in Petrograd and co-
operate with Generals Deniken and
Yudenitch, has been discovered,
according to an official wire-
less dispatch from Moscow.

The revolutionary organization,
said to number nearly 1500, was
declared to have been financed by
the Allies to the extent of tens of
millions of rubles and to have
been headed by Editor Bakoff.

According to the wireless, the
plotters planned an attack on the
red army in the rear as Yudenitch
nearly Petrograd in a fresh offen-
sive. Communication was said to
have been established with Deni-
ken by airplane.

Meanwhile, according to Mos-
cow claims, the Bolsheviks contin-
ue to advance on a sixty-mile
front from the gulf of Finland to
Ghurdskee Lake.

"Destruction of Kolchak's army
continues and our advance is un-
interrupted," said the com-
munique. "We have taken 900 ad-
ditional prisoners."

"We have flung back the Kur-
shoff region and captured three
armored trains."

**U. S. AGAIN CRITICIZED
BY S. F. SUPERVISORS**

SAN FRANCISCO, Nov. 25.—
The board of supervisors which
recently passed judgment on the
coal strike, stood by its guns early
today and re-passed the resolu-
tion it recently adopted, criticiz-
ing the federal government be-
cause of employment of the in-
junction against the miners.

The vote, taken at 2 p. m., af-
ter a ten hour stormy session, was
15 to 2 for the resolution.

The chamber of commerce, ro-
tary club and other organizations
have severely censured the board
because of the resolution.

**TREATY CAN'T GO IN
EFFECT DECEMBER 1**

PARIS, Nov. 25.—The peace
conference will be unable to car-
ry out its plan and make the
treaty effective December 1, it
was learned definitely today. Fail-
ure of the American senate to ratify
the Versailles treaty, combined
with the departure of the German
delegates without signing the
protocol, providing enforce-
ment of the terms, caused the con-
ference to decide upon postpone-
ment of the tentative date, it was
learned.

**EL MONTE YOUTH HAS
SLEEPING SICKNESS**

LO ANGELES, Nov. 25.—Robert
Carr of El Monte, aged 18, be-
gan his fourth week of continuous
sleep at the Clara Barton hospital
here today.

He was brought to the hospital
November 3 and since then has
not been able to open his eyes,
speak or take solid food.

Physicians, who diagnose the
case as one of "sleeping sickness,"
have been unable to awaken him
and are at a loss for treatment.

**U. OF C. REGENTS TALK
ABOUT NEW PRESIDENT**

SAN FRANCISCO, Nov. 25.—
The executive committee of the
board of regents again went into
executive session today to discuss
qualifications of candidates for
president of the University of Cal-
ifornia. It is believed likely that
the committee will very soon
choose the candidate it is to re-
commend to the board.

**RAIL MEN UNDECIDED
ON OFFER OF HINES**

CLEVELAND, O., Nov. 25.—
General chairman of the railroad
brotherhoods in session here to-
day were still undecided on the
over-time payment offer of Direc-
tor General Hines to workers in
the slow freight service. It was
believed the next 24 hours would
develop a definite statement from
the conference.

REPUBLICANS OVER TWELVE PLAN THEIR NEW FIGHT ON PACT

Quick Ratification Demand
Will Start Battle For War
End Measure

WASHINGTON, Nov. 25.—While
President Wilson worked today on
his message to congress, Republican
leaders in both houses planned their
attack on his expected demand for
quick ratification of the peace treaty.

The situation is:
When the president's message goes
before congress, the Republicans will
be ready to concentrate their efforts
on passage of Senator Lodge's resolution
declaring the war ended.

If Wilson adheres to his stand that
the treaty should be ratified with
only explanatory reservations, and
that the Lodge reservations nullify
the document, the Republicans im-
mediately will start the drive to force
their resolution through, and put it
before the President for his signa-
ture, thus laying on him responsibility
for continuing the technical state
of war, if he vetoes it.

But if Wilson manifests a spirit of
compromise and says the treaty is
acceptable with the Lodge reserva-
tions or with reservations based on
them, opposition leaders will devote
their efforts to bringing about this
qualified ratification.

Indicates Changed Plan
This indicates a change in the Re-
publican plan, as Senator Lodge
previously stated that if the Presi-
dent reintroduced the treaty next
session it would suffer "the delay of
death" in the foreign relations com-
mittee; and later expressed an eag-
erness to make ratification a campaign
issue in 1920.

The Republicans now figure that
they will gain strength in the pres-
idential campaign, no matter what
course the treaty fight takes, or
they will go before the country as
the party that safeguarded national
interests and "Americanized the
treaty"—if it is adopted and as the
party that saved America from en-
tangling foreign alliances—if it is
finally beaten.

Word of what attitude the Presi-
dent will take in his message is care-
fully guarded at the White House.
His friends do not believe he will
recede from his stand of only a week
ago, that the treaty is practically
killed by the Lodge reservations, or
anything like them, unless he couples
such action with a decision that even
with crippling qualifications the
treaty is essential to stabilize world
conditions, being better than none at
all.

**FOUR INJURED IN 2
L. A. AUTO ACCIDENTS**

LOS ANGELES, Nov. 25.—Nicholas
Ednoff was probably fatally injured,
and three others were severely hurt
in two auto accidents early today.

Ednoff was hurt when an automo-
bile in which he was riding crashed
into a Pacific Electric freight train
at Slauson and Long Beach avenues.

Jim Radometkin and W. F. Roll, also
in the automobile were slightly hurt.

Silvio Borzi was seriously injured
when an automobile and his motor-
cycle collided on San Fernando boule-
vard.

FORMER MAYOR SENTENCED
LOS ANGELES, Nov. 25.—W. H.
Carlson, former mayor of San Diego,
who was sentenced to McNeil's Is-
land federal prison penitentiary for
using the mails to defraud in a real
estate scheme, has applied to Presi-
dent Wilson for a pardon, it became
known here today.

New Secretary of Treasury
To Be Announced By Wilson

Politicians Say One of Three
Prominent Men Will Be
Given Office

WASHINGTON, Nov. 25.—President
Wilson is expected to announce the
name of a new secretary of the treas-
ury within a few days. Carter Glass,
who has just resigned the office will
become United States Senator from
Virginia to succeed the late Senator
Martins.

There are three men now holding
offices under the present adminis-
tration who are looked upon favorably
for the place and one of them, it is
believed by politicians at the national
capital, will be named. They are
Swagart Sherley, representative; Daniel
C. Roper, commissioner of internal
revenues and Charles S. Hamlin, gov-
ernor of the Federal reserve board.

It is understood that the presi-
dent has already made up his mind in
the matter but so far no intimation as
to who will be given the office has been
made.

BULLETINS

NEW YORK, Nov. 25.—Twenty-
five cars oranges and five cars of
lemons sold. Orange market 10c
to 20c lower and in some in-
stances 25c to 30c lower. Average
\$2.21 to \$2.80. Highest price for
73 boxes of President, Hewes
Park and Alphabetical, \$8.00.
Lemon market steady on 300
size, 25c to 50c lower on 360
size and smaller. Average \$2.15
to \$4.52. Weather fair, 8 a. m.
temperature 39.

INDIANAPOLIS, Nov. 25.—May-
or R. H. Bunch, of Muncie, Ind.,
today was sentenced to serve 2
years in the federal penitentiary
at Atlanta and pay a fine of \$1000
for participation in a fake fight
swindle. Prosecuting Attorney
H. C. Murphy also of Muncie was
given a similar sentence. Twenty-
one others were given varying
sentences in the same case. The
defendants included well known
Muncie men, members of the po-
lice force and associates from
other cities. The charge was
using the mails to defraud.

LOS ANGELES, Nov. 25.—
Agents of the State Pharmacy
Board following arrest of three
men at Pasadena today announced
they had unearthed a gigantic al-
leged drug ring, with its head at
Gilead, Ohio, which is nation-
wide in scope. They alleged that
50 arrests including many wealthy
Pasadenans could be expected.
Cocaine they charged is being
sold for \$12.50 for five grains un-
der the name of an asthma cure.

LOS ANGELES, Nov. 25.—D.
Arthur Kennedy, of San Diego,
was killed and Walter Blume of
Seattle suffered a broken leg and
other injuries when a racing car
Blume was driving 100 miles an
hour overturned on the Ascot
speedway this afternoon. Blume
had brought the car here to be
driven by Jack Ross in the
Thanksgiving day races at Ascot
Park. Blume was to ride as
Ross' mechanic.

SPLIT OVER WAGES TO BE PAID MINERS

Secretary of Labor Wilson
Insists 31 Per Cent Is
Proper Increase

**ANOTHER SESSION IS
HELD THIS AFTERNOON**

New Data Will Be Handed
Members; Pick Mining
Under Discussion

WASHINGTON, Nov. 25.—Members
of President Wilson's cabinet
meeting today to bring about a settle-
ment of the coal strike were unable to
agree as to what will be a fair wage in-
crease to the 400,000 miners who are
idle.

After discussing the coal situation
for three hours the cabinet adjourned
at 2 p. m. to meet again at 3:30. The
disagreement was over insistence of
Secretary Wilson that his proposal for
an increase of approximately 31 per
cent is necessary to equalize the min-
ers' wages and living costs.

Fuel administrator Garfield and sev-
eral cabinet members opposed this
view and Garfield at the second ses-
sion late today will lay new data be-
fore the cabinet to support his con-
tention.

Attention was called to the argu-
ment of operators that while Wilson
based his figures on wages paid to
pick miners in 1913, about 70 per cent
of the coal now mined in the central
competitive district is mined by ma-
chinery.

Wilson at the second meeting to-
day planned to point out that more
than half of the coal mined through-
out the country is mined with picks.

**Produce Facts and Figures,
Owners Demand of McAdoo**

WASHINGTON, Nov. 25.—Coal op-
erators today sent a telegram to Wil-
liam G. McAdoo, challenging him to
produce the figures upon which he
based his charge that operators have
been making "shocking profits" and
could afford to grant coal miners wage
increases.

"If you have not these current facts
and figures, your mere personal opin-
ion has no weight," McAdoo was told.

**GEN. ANGELES SERENE
WHILE WAITING DEATH**

NOGALES, Ariz., Nov. 25.—General
Felipe Angeles, Villa's military leader,
now believed to be on trial before a
summary courtmartial at Chihuahua
City, realizes that execution is to be
his fate, according to delayed advices
reaching here from Chihuahua City.

Some reports, not generally credit-
ed because of the lack of official word
are that Angeles already has been ex-
ecuted.

Dispatches describe Angeles as se-
rene "at times and at other times he
is spiritless, revealing that he knows
execution will be his fate."

These same dispatches claim that
Villa himself is again in imminent
danger of capture.

MILK PRICE RAISED
SPOKANE, Wash., Nov. 25.—Blam-
ing the producers, milk companies
here put a half a cent a quart raise
into effect today. The bottled pro-
duct now sets the consumer back 13
cents. The producers get an increase
of 25 cents a hundred pounds.

Register Editorial Is Lauded By J. D. Rockefeller Jr.

Editor
The Register,
Santa Ana, Calif.
Dear Sir:

I have read with interest the edi-
torial in the "Register" of October
16th, entitled, "Getting Acquaint-
ed."

You strike at the very heart of
most of the friction in the world be-
tween men, when you say, "It is
misunderstandings that make nearly
all the trouble, and people only
misunderstand each other when
they don't really know each other."

Very truly,
JOHN D. ROCKEFELLER, Jr.

FULLERTON AND CITRUS UNION PLAY HERE

Big Semi-Final Championship Contest Announced Today For Santa Ana

Firing the opening gun in his publicity campaign designed to "boost" a semi-final championship game to be played here Saturday between Fullerton and Citrus Union high schools, Coach S. S. (Shorty) Smith, formerly of Santa Ana, was here today, stating that in his belief Saturday's contest will be one of the fastest ever staged on the local gridiron.

On Friday of last week, Citrus Union, by defeating Glendale by a score of 45 to 0, won the championship of its league and won the right to meet Fullerton, winner of the Orange League championship. Citrus Union has not been scored against this season.

The winner of Saturday's game here will, a week from Saturday, play the winner of a game to be played Saturday between Long Beach, winner of the City League championship, and Santa Monica, winner of the Bay League championship.

The Santa Ana high school gridiron was chosen for the Citrus-Fullerton contest as semi-final and championship games must be played on neutral grounds.

The game here Saturday will begin at 2:15, it was announced.

LEADERS LAUNCHING PRESIDENTIAL FIGHT

(Continued from page one)

"States rights" figuring as an issue. This might come about in connection with enforcement of prohibition. Rhode Island has not ratified the constitutional amendment, and, according to her representatives here intends to resist enforcement on the ground that the federal government has no right to interfere in such a matter.

Many cities are bidding for the Republican national convention. They include San Francisco, Chicago, Asbury Park, St. Louis, Kansas City, Milwaukee and St. Paul and Minneapolis combined. For the Democratic convention, Baltimore, Chicago, Indianapolis and St. Louis are among those bidding.

Politicians are looking to South Dakota to bring out the first "bumper crop" of candidates.

January 1 is the last day in which contenders in that state may file their declarations. The first presidential primary will be in New Hampshire, March 9.

Earnest Fulsom has purchased 30 acres of the 200 acre Townsend walnut orchard.

Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

"Mother! You must say 'California'!"—Ad.

GREAT INCREASE IN S. A. BANK DEPOSITS

(Continued from Page One)

cient to offer banking accommodations to the largest of enterprises.

"There is an active demand for money in general business lines," said A. J. Crookshank, president of the First National Bank today. "It is always the case that where big business is going there is a large demand for money. The general feeling in banking and business circles the country over is that money conditions are sound. The only menacing condition today is the labor unrest and this condition will adjust itself in time I believe, without any serious collapse or financial panic."

The money in the banks today has come through crop returns, investments and a large number of easterners who are coming here and depositing their funds.

More Eastern Drafts
"More eastern drafts are being presented at the banks than ever before," declared a local banker today. "Men who have been in business or ranching apparently have taken advantage of the high era of prosperity to dispose of their holdings at good prices and are coming here to invest in homes and income property."

A tabulation of deposits in the four banks is given for 1918 and 1919 for comparison and it will serve to present the vast growth in the institutions. The figures for the Farmers and Merchants Savings Bank are made up by taking the totals of the Home Savings Bank and the Santa Ana Savings Bank at that time, which was prior to the merging of the two savings departments of the First National and the Farmers and Merchants National Banks. The 1918 report of the First National includes deposits of that bank and the Farmers and Merchants on the first of November, 1918. The tabulation of deposits for the two dates are as follows:

| | | |
|--------------------|----------------|-----------------|
| 1st Nat'l | \$4,684,558.36 | \$6,711,386.55 |
| Cal. Nat'l | 623,592.41 | 1,347,758.25 |
| F. & M. | 1,191,892.27 | 1,910,774.48 |
| Or. Co. Tr. & Sav. | 1,103,713.79 | 2,229,673.95 |
| Total | \$7,603,756.83 | \$12,209,592.23 |

2 ENTOMBED MINERS CALMLY PLAY POKER

MULAN, Idaho, Nov. 25.—With a three weeks' supply of food and nothing to do, Emil Sayko and P. P. Grant, entombed since November 15 in the Gold Hunter mine here are calmly playing poker today.

The food supply, lights and other comforts were lowered to them last night.

Rescuers expected several days of work before the men can be brought to the surface.

MURDERS LOVE RIVAL THEN SLAYS HIMSELF

STOCKTON, Nov. 25.—Rushing out of his room in a local lodging house last night, Joseph W. Blackman fired a bullet into the body of A. Garcia, who was passing the door, killing him instantly. Blackman then returned to his room, barricaded the door and when the police attempted to force it open, sent a bullet into his own head. Police say the double tragedy was the result of a quarrel over a woman.

RAID ALLEGED LOTTERIES
LOS ANGELES, Cal., Nov. 25.—Following out plans to rid the city of Chinese lotteries, police last night raided three alleged lottery dens in widely scattered sections of the city and arrested a total of 21 men.

There is probably no prouder father in Anaheim today than William J.

UPSTAIRS AND DOWN

From cellar to garret—a laugh on every step

City and County Briefs

E. J. Murphy, for eighteen years an honored citizen of Fullerton, passed away Sunday. He leaves to mourn their loss a wife, Mrs. Rebecca Murphy, two sisters, Mrs. Edwin Markham of New York and Miss Mary S. Murphy of Los Angeles, a brother, Dan Murphy of New York, in addition to a host of other relatives and friends.

Fullerton now has a Saturday night bank which is greatly appreciated judging from the patronage. The Standard Bank of Orange County keeps open Saturday evenings for the accommodation of the public. S. W. Smith, cashier, states that the first week's business of the new bank is very satisfactory, the business being much better than anticipated.

John Good, for 17 years a resident of La Habra, died at his home there late Saturday night at the age of 84 years. He leaves three sons, one of whom is in the city treasurer's office in Los Angeles, and a sister, Mrs. Shurvinton, of Orange. The funeral was held yesterday afternoon.

The meeting of the committee having in charge the determination of what mechanical features will be needed at the plant of the Santa Ana Walnut Growers' Association on East Fourth street in order to double the capacity of the house will be held tomorrow. It was today announced by Harry W. Lewis, president of the association. The meeting was to have been held last night, but was postponed.

Sebastian. This is explained when it is announced that a fine son has arrived at the Sebastian home at 140 West Chartres street, the plump little fellow bringing the beam of the scales nearly to nine pounds.

Former residents of Fillmore county, southern Minnesota, are planning on holding a picnic at Orange County Park Thanksgiving Day. It was announced that anyone from Minnesota will be welcome. Coffee and cream will be furnished at the park, but picnickers were requested to bring their own sugar and cups.

Frozen Pudding, French Ice Cream, Cranberry ice, special for Thanksgiving at the Dragon.

Changes Mind About Going Away

"Five years ago doctors told me I would have to move my wife to another climate, as she suffered so with stomach and liver trouble and bloating. Also, that she would have to have an operation for gall stones. Our mail carrier told me of May's Wonderful Remedy and, on his advice, she has taken it and is now as well as ever in her life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At druggists everywhere.—Adv.

Much Interest In Concert Is Being Noticed

Miss Katherine Crocker

**Los Angeles Society Folk Are
Coming Here For Fine
Program**

More than ordinary interest in the forthcoming joint concert of Katherine Crocker, Harold Melville and Elsa Deremeaux Wednesday and Thursday evenings is being shown in the request for seats not only by music lovers in Santa Ana, but from a number of Los Angeles society people, who are motoring out for the occasion.

These artists are well known in Southern California, having appeared in Los Angeles, San Diego, Riverside and Redlands.

They were on tour in the east when the war broke out and Mr. Melville became a flying officer in the air service. Again joining forces they have been fortunate in securing Elsa Deremeaux, a Parisian pupil of Godowsky, as piano soloist.

For devotees of opera Katherine Crocker will sing a selection from Madam Butterfly, while Melville's "Christ in Flanders" will stir the heart in echoing the world's conflict.

STRIKES MAY HOLD UP BEACH GAS PIPE

HUNTINGTON BEACH, Nov. 25.—At a special meeting of the city council last evening the report of Engineers Sumner & McMillan on the proposition of obtaining pipe for the new gas mains developed the fact that municipalities are not immune from the strike situation throughout the country.

Owing to that fact it was not definitely known at this time whether the desired amount of pipe would be forthcoming or not, but the engineer thought that by using some second-hand pipe now in sight together with some O. D. casing that could be had, sufficient pipe might be obtained to do the job.

The amount required is about 67,000 feet, of which 40,000 feet is two-inch. C. J. Andrews and Ed Manning were appointed a committee together with the city engineer to inspect some second-hand pipe and report as to the feasibility of using it in the city's mains. It developed from the opening of bids on the digging of the ditches and laying the pipes that there was a wide range of figures from eight to eighteen cents per foot. The firm bidding eight cents agreed to hold its bid open until the 15th of December in order to give the city time to get the required amount of pipe.

There seemed to be a question of doubt among some of the city council as to whether under the prevailing conditions the new gas system could be placed at this time for the amount of the bond issue, \$40,000, but the city engineer assured them that with the eight cent bid for labor and other conditions now in sight for pipe he was quite positive that it could be done for that figure.

Charles R. Nutt tendered his resignation as city electrician, which was accepted, and R. L. Ross was appointed. Mr. Ross formerly held that position and upon his return to the city it was thought by Mr. Nutt that he should again have it to relieve the city clerk of extra work.

The proposition of the board of supervisors relative to apportioning the motor vehicle funds among the various municipalities was accepted. The board decided to advertise again for bids on furnishing the 67,000 feet of pipe and set December 8 as the date for opening bids.

The chamber of commerce adjourned its regular meeting until Friday evening at 7:30 owing to the fact that the Spanish class was using the room Monday evening, and that the city board held a special meeting at that time.

Frozen Pudding, French Ice Cream, Cranberry Ice, special for Thanksgiving at the Dragon.

W. H. THOMPSON AND FAMILY,
STEP-DAUGHTER MRS. H. S. SMITH AND FAMILY.

Reduction sale of Trimmed Hats, O'Donnell Millinery, 4th and Birch.

SOUTHERN CALIFORNIA

PASADENA, Nov. 25.—Thirty automobile parties from the East are the average number to go through this city daily, according to figures obtained by H. A. Martin, local representative of the Auto Club of Southern California. The route through Pasadena is the most popular one with the transcontinental tourists because of the scenery.

VENICE, Nov. 25.—Venice has planned an elaborate Thanksgiving Day program for visitors. The first

consignment of turkeys will be given away at the Band Plaza at 1 o'clock. Then Turkey Hall will be opened for dancing and more turkeys will be distributed. After this there will be swimming races in rear of the Venice plunge. The rest of the afternoon will be taken up with a concert by the Venice band and more turkey gifts, and at night there will be another concert and a fireworks display.

ALHAMBRA, Nov. 25.—A Christmas check, dated December 11, 1908, which the Alhambra Chamber of Commerce sent to Private W. W. Schebbach who was stationed at F. R. A. D. England, Washington barracks, was returned yesterday to the secretary. It had traveled far and no trace of the boy could be found, so it may be used for his present this year if he has returned to his home. If not some little poor child may have the benefit of the money. Many of these checks sent the boys were returned and some were lost.

CLAREMONT, Nov. 25.—Pomona College's big blue and white pennant is missing. It was taken by some one only a few minutes before the Pomona-Occidental football game last Saturday. The pennant was floating at the top of a big flagpole on the campus when last seen. Two men on a motorcycle drew down the pennant and sped swiftly toward Los Angeles.

WHEN YOU SUFFER FROM RHEUMATISM

Sloan's Liniment should be kept handy for aches and pains

WHY wait for a severe pain, an ache, a twinge following exposure, a sore muscle, sciatica, or lumbago to leave naturally when you should keep Sloan's Liniment handy to help curb it and keep you active and fit?

Without rubbing, for it penetrates, apply a bit today to the afflicted part. Note the gratifying, clean, prompt relief that follows. Sloan's Liniment couldn't keep its many thousands of friends the world over if it didn't make good. That's worth remembering. All druggists—three sizes—the largest for utmost economy. 35c., 70c., \$1.40.

**Sloan's
Liniment
Keep it handy**

Givin' Thanks

While we're givin' thanks this season
For prosperity an' peace
An' for barns an' corncribs burstin'
With the fruits of earth's increase,
Ain't it right to be as thankful
For the thing we sometimes call
The comfort bringin' peace-plant—
Nature's old, best gift of all?
She makes it out of sunshine
An' she fans it in the breeze
An' she gives to it the fragrance
Of a thousand orchard trees.
Like a fav'rite child she tends it,
'Till it's full grown-up an' then
She gives it to the roasters,
Who make U. S. SPECIAL BLEND.
An' then, they roast and grind it
Just as fresh, as fresh can be,
An' the women folks, fix an' serve it
For a meal or two or three,
The good folks sure deserve it
An' it fills their hearts with glee.
For they know they're drinkin' nature's best
When they drink U. S. COFFEE.

THE JOY

of your Thanksgiving Dinner will certainly be increased if the goodly spread is followed by a cup of delicious fragrant well-made U. S. Special Blend Coffee.

Buy it direct from
The Coffee Roasters
U. S. COFFEE STORES.

FORMER STOCKMAN OF NEBRASKA DIES HERE

The funeral of M. M. Fay, who died on Sunday, is to be held at 10 o'clock Friday morning at Smith & Turhill's chapel. The funeral was set for Friday in order that time might be given for the arrival of a daughter and her husband, Mr. and Mrs. Earl Rule, from Montrose, Colo.

For many years during the active period of his life, Mr. Fay was a grower of fine stock near Bloomington, Neb. The family moved to Montrose, Colo., on account of Mr. Fay's health, sixteen years ago, and came to Santa Ana about a year ago. The home here is at 602 East Walnut street.

Four daughters will be present at the funeral. They are Miss Ruth Fay of Santa Ana, Miss Eleanor Fay, who was on her way home from the University of California when her father died, Mrs. A. W. Yoxall of Bakersfield, and Mrs. Rule of Montrose, Colo. Beside these four daughters, Mr. Fay leaves his widow and two sons, M. M. Fay, Jr., of Butte, Mont., and J. B. Fay of Montrose, Colo.

CALEXICO, Nov. 25.—Day after day since the picking season opened train loads of cotton are brought in. The number has steadily increased to twenty, thirty and finally forty-eight cars today, which mark the peak of this season.

Automobile Complexions

The pleasure of a vacation or auto trip is often spoiled by undue exposure of the complexion to the elements. Changing seasons, the sun and cutting winds cause horrifying after-effects. To overcome this in a simple and satisfying way use

Fletcher's Bleach Paste
and
Skin Beautifier

as a face powder base. This treatment keeps the skin clear and smooth and positively does not grow hair. You will be surprised and elated over your rosy, youthful appearance. Physicians recommend this wonderful cream to remove, as well as prevent, tan and freckles, because it does not make blackheads and enlarged pores. Fletcher's Bleach Paste eradicates unsightly blotches and pimples. An expensive jar can be obtained at leading druggists and department stores.

CITY AUTOMOBILES

A commission has been appointed in Paris to study automobile traffic and suggest some better system of handling the cars and safeguarding pedestrians. Paris is not alone in facing this problem. London, New York, Chicago and other large cities are almost in despair at the volume of motor traffic and the apparent impossibility of coping with it. Every city, large or small, is involved in the same trouble.

What is to be done when all the automobiles in a community insist on crowding into the downtown section at the same time?

The situation has developed so suddenly that even the newest boom city, laid out to order to suit the demands of modern civilization, is hardly prepared to handle it. The older the city, the worse the traffic congestion. The streets were never intended to accommodate a line of parked cars along each curb, with two other lines in continuous and opposite motion, with perhaps trolley cars running along the middle, and vehicular traffic crossing at every intersection, and pedestrians complicating the mix-up by streaming through at every cross-walk.

It gets worse all the time. What is to be done with the parked cars, and how are the moving cars to be kept in motion with the least friction and peril? Must there be great public garages built downtown, in every city, under the streets or in the basements of office buildings or elsewhere, to take the standing cars off the streets? Must there be a transformation of the street and sidewalk system, with some streets for cars only and others for walkers only, or different street levels for cars and pedestrians and trolley?

Here is a transportation problem just as serious as any connected with the railroads, and of more immediate interest to great numbers of people. Where is the genius that can solve it—and persuade the public to spend the money that the solution will probably require?

CONSERVATIVE FREEDOM

Americans can never understand French politics, with its many parties and issues, but one fact stands out clearly as a result of the recent French elections. The radicals have lost ground. Premier Clemenceau has been upheld, and conservatism has won.

The Italian elections resulted similarly. So did the British elections. In every case the public has spoken calmly and sanely.

In Russia radicalism is still triumphant. It is rampant, too, in many parts of Central Europe. Wherever there was tyranny before the war there is a riot of radicalism now. In the countries where the people were already free, there is conservatism.

It is an instructive comparison, that of the newly liberated peoples going to foolish extremes with their liberty, and that of the peoples who, being used to liberty, know that its fruits can be enjoyed and preserved only by orderly and peaceful processes.

This is what the aliens now plotting revolution in this country cannot understand. They see free America only through the eyes of persecuted Europeans, imagining here the tyranny to which they were accustomed at home. Then they wonder when, having started an "uprising," they find the American public unwilling to follow them. Americans do not follow them simply because America already has the things they promise.

THE DRY APOLLOS

One of the entertaining results of prohibition in New York City is the fact that the Athletic Club is becoming athletic. Previous to the dry regime, says a New York correspondent, the activities were far more of the alcoholic than of the athletic variety. There were six bartenders, and at the cocktail hour they were all kept busy. Now, at the same hour, the bar is deserted and the businessmen's class in the gymnasium is so big it is going to be divided into sections.

The men who used to go in for cocktails and fat are now going in for exercise and leanness. Never was there so much interest in waistlines. The artificial appetite of the cocktail has given place to the wholesome one induced by setting-up drill and

a cold bath before dinner.

The annual dues of this particular club will have to be raised to provide for the deficiency caused by the patronized bar. But there is no doubt that the members who recently have not spent coin on the festive cocktail will have it to spare for the dues. There can be no question as to the superiority of the gym over the brass rail.

THE GOLDEN RULE

William Goodall Young, a New York citizen, has set about to establish the Golden Rule as the rule of business in the business world that he knows. He has started a public propaganda for the idea, and is organizing "Golden Rule Clubs." The movement was formally launched at a dinner in a big hotel the other night.

To anyone who objects to the "impractical" or "ultra-idealistic" nature of the undertaking, Mr. Young replies that "it is about time somebody came forward and tried to put a little common sense into things."

"My idea is perfectly simple," he adds. "I am afraid it is too simple. It is just a matter of getting everyone to stop and think. 'Now, how would I feel if I were in the other person's position?'"

This, he is sure, is the way to fight radicalism, and also the way to procure for Americans the rights guaranteed them by the Constitution and the Declaration of Independence.

It is mere Christianity, of course. And this is a Christian nation.

We Couldn't Wait

San Bernardino Sun

If an election had been held in the United States on November 15, in which the whole country was interested, just imagine a system by which we would be compelled to wait until November 28 for the returns, without a leak of any kind to give us a hint of whether we had won or lost. Yet that is the way they do things in Britain.

A "bye" election to fill a vacancy in the House of Commons led to what was perhaps the most unique campaign in the history of English politics. The death of Lord Astor, ex-patriated American, automatically moved his son up into the seat belonging to the family in the House of Lords. The son was in politics himself, and has been elected to the House of Commons, where he would perhaps have preferred to stay, had he consulted his American inclinations. Remarkable as it may seem, his wife determined to be a candidate for the vacant seat in the Commons. She is an American girl, a Virginia beauty, who married the son of the house of Astor, and has been very successful in English society. But she proved a whirlwind on the stump, and by all reports probably has been elected to the seat in the Commons, the first woman so elected, and an American by birth at that.

But the result of the election held last Saturday will not be announced until November 28, according to the English system, and everybody seems to be happy and taking things easy while they count the vote. That would hardly do in America.

CAUSTIC COMMENT

Hiram Johnson says that Article X of the League Covenant would place the world in a strait-jacket. Judging by what the world has been doing these past five years we'll say that a strait-jacket is highly advisable.—St. Paul Pioneer Press.

If the law is going to permit the farmers to make as much as they like of hard cider, for their own use, the "back to the farm" movement may receive a vigorous boost from an unexpected quarter.—Boston Transcript.

A news item tells of a Los Angeles scenario author tearing up \$20 in bills just for the psychological effect. Who ever heard of an author having that much money all at one time? If it had been a brick mason or a carpenter or a painter, perhaps; but an author—never.—Riverside Press.

The more money we make, the more we spend. The more we spend, the higher prices go. The higher prices go, the more money we must make. The more money we must make, the harder we must work—and there you are.—Chicago Enterprise.

BOY KILLS LION COYOTE

ZION CITY, Ill., Nov. 25.—Fifteen-year-old Theodore Mason is a hero in Zion City. Armed with a small caliber rifle Mason shot and killed a coyote which, for several weeks, had been hunted by the police. The animal had killed chickens valued at several hundred dollars. A reward of \$50, offered by the mayor, was turned over to the youthful hunter.

For the Near East

Stricken Armenia, the bulwark of Christianity and civilization in the Near East for more than sixteen centuries, is now in need of help, which I feel will be generously and willingly accorded, not only by the people of the United States, but those nations in whose behalf in the late war, were made noble sacrifices, which brought upon these stalwart defenders of right the vengeance of the nuspeakable Turk, threatened their extinction and reduced them to a condition of heart appealing destitution. Eight hundred thousand of these brave, courageous souls must be extended assistance, which will tide them over until the next harvest. We, as a nation, would be recreant to our duty did we not respond to the Macedonia cry which has come to use across the waters. I cannot too strongly endorse the humanitarian work being carried on for the Armenians, by the Near East relief commission, and pledge my co-operation officially and personally in any way I can be of service.

FAVORS HUNTING THAT SEEKS NO KILLING

Perkins Advocates Endeavors That Requires No Death to Wild Life

Advocating photography, botanical explorations and similar lines of outdoor endeavor as substitutes for the taking of wild life, A. J. Perkins last night read to the Monday Club a paper on "The Gentle Art of Hunting." The club met at the home of Fred Rafferty on Tenth street.

In the beginning of the paper there was reviewed a number of the atrocities that characterized the great war just passed. Among those mentioned were the shooting of defenseless civilians in Belgium, the Edith Cavell case, poison gas, the death of sixty prisoners of the Highland regiment called the Black Watch whose story Harry Lauder tells. "In this wickedness," said Perkins, "the Germans excelled our American Indians who had not had knowledge of anything better."

The brutal way of disposing of the wounded with a spiked club, the crucifixion of Canadian soldiers, air bombing raids on London and Paris, the Lusitania disaster, for which in exultation Germany made commemorative medals, the unfeeling manner in which submarine commanders drowned their prisoners, and the indifference to international law shown in firing upon hospitals whether on sea or land were presented.

These harrowing instances were cited by the writer of the paper, who said that the great war differed from all others in history in its cruelty and disregard for the weak and helpless, and it was pointed out that the war will leave everywhere a heritage of indifference to suffering and loss of life from the very familiarity which lessens the poignancy of the emotions.

Develops Skill
The history of hunting showed that it was an occupation by which the skillful use of weapons, marksmanship, and courage were developed, qualities all useful in war. It enjoyed the patronage of kings and both royalty and the nobility went forth in the old days to hunt the stag and the wild boar.

Declaring that there is an intimate connection between war and hunting, Perkins recited an incident of the fifteenth century in which Earl Percy went hunting over the Scottish border for three days invading the preserves of Earl Douglas. A fight ensued between the English archers and the Scottish spearmen with the result that both ears and the most of the 3500 men engaged were slain.

"History shows," said he, "that hunting has been followed for two principal reasons, to secure a supply of food and to demonstrate one's prowess. In frontier days homes were remote indeed from each other and no butcher shop within a few blocks from which meat could be procured. Venison was as staple as beef or pork."

"Those days have long gone by and conditions have changed, as our Indians have found to their sorrow. The country is largely settled up, the forest has disappeared and the bison no longer roams the plains."

"Though conditions have changed, some customs persist. There is no dire necessity that requires the hunter to go out and search the land in order to add to his slender larder."

Kindness to Animals
The writer then spoke of a visit to the grounds of an ancient temple in Japan where deer were found unconfined and unmolested by the people who being Buddhists believe in the transmigration of the soul and are taught from childhood to be kind to animals and to kill none, and are consistent in that they do not eat meat.

The writer gave a further instance of the pleasure arising from close observation of deer while in the West. Fork of the San Gabriel and declared that it was greater than that of eating venison.

In the present limited numbers of small game and the great improvements made in the efficiency of weapons it was urged that there was unfair advantage in killing quantities of quail, doves, and ducks, and that these wild inhabitants made one of the great attractions of outdoor life.

On the other hand it was distinctly stated that no objection was offered to the killing of birds or animals that were dangerous or noxious in their character. It was suggested that to go out and get the limit of twenty-five skunks in a day was more

Let Us Help You Into That Thanksgiving Suit or Overcoat

Come in today or tomorrow and get fitted out—you'll feel better in a new suit and a nice warm overcoat. You'll feel like stepping out. You'll enjoy your Thanksgiving more by knowing that your clothes are right.

You will be able to make just the right selection from our big stock. A big line of new, nifty suits and overcoats for you young fellows. Something with the pep and ginger that will appeal to you is here. New models that have just arrived—perhaps just the one that you have been waiting for until now.

We have a good line of semi-conservative and conservative models for the man who wants style without the frills.

Come in and let us show you these real values—it costs you nothing to look at them. Let us show you the famous Knit-Tex Coat.

You'll find the most for your dollar here. Suits and Overcoats from

\$22.50 to \$55.00

We are showing a beautiful line of solid color fibre shirts. Really wonderful values—shirts that cannot be duplicated at the present wholesale cost for our retail prices.

THE ONLY WAY

I lost my way when in the woods one night
And took a path I ne'er before had known.
A storm was threatening, and it had grown
Quite dark, and moon and stars were hid from sight.
Then round my heart a numbing sense of fright
Pressed hard—I seemed so utterly alone!
Till through the gloom a flash of lightning shone
And I beheld the homeward path aright.

And so, dear Love, whenever pain or care
Or disappointment-darken any day,
When hope is almost vanquished by despair,
And every thought is wandering astray,
One word from thee will brighten all the air
And lead my feet along the loved way.
—Alice Van Buren.

Head-Mitchell Nuptials.

One of the prettiest wedding ceremonies taking place recently occurred yesterday at the First Methodist church in Garden Grove at high noon, at which time Miss Reba Head, daughter of Mr. and Mrs. L. E. Head of Garden Grove, and Clyde Leroy Mitchell, the son of Mr. and Mrs. J. C. Mitchell, were quietly married by Rev. John Oliver of the First Methodist church of this city.

The only attendants at the ceremony were Miss Jessie Freeman and Louis Head, brother of the bride.

Soft beaver gray material trimmed with blue and with accessories to match, completed a tailored costume most becoming to the bride. She carried a bridal bouquet of Cecile Brunner roses and maiden hair fern. Her only ornament was a ruby lavalliere given to her by her father.

After the marriage service, the bride party enjoyed a dainty banquet at James', after which they motored to Los Angeles to attend a theater party.

After the theater, the party was served a delicious wedding supper, later returning to Santa Ana, leaving the bride couple in Los Angeles, where they will be established in their new home at 223 Daly street, in a short time.

Washington P.T. A.

The P.T. A. of Washington school will meet tomorrow afternoon at 3:00 o'clock. Miss Brokaw and her grade mothers, Mrs. Hoy and Mrs. Beal, will have charge of the meeting. City Librarian Miss Jeanette McFadden is going to talk on "Christmas suggestions for books for children." Miss Ruth Rowland of the high school will also give a talk on "School Lunches." A large attendance is desired as there will be no December meeting.

Six O'clock Dinner.

Mrs. W. C. Flipp of 308 West Bishop street, entertained with a charming six o'clock dinner last evening given as a farewell courtesy to Captain and Mrs. N. M. Holderman, who leave Friday for Yountville, where they will make their home. Elmer Hawkins was also a guest at the dinner.

Farewell Party Given.

A very enjoyable party was given Saturday evening at the E. E. Elbertson home on the Irvine ranch as a farewell to their many friends before leaving for their new home in the Huntington Beach district where Mr. Elbertson has leased 100 acres of irrigated land.

Dancing was the chief diversion of the evening, the music being furnished by the Turner orchestra. Late in the evening, refreshments consisting of a variety of cakes, pie, sandwiches, pickles and coffee were served.

Mr. Elbertson and his family have lived on the Irvine ranch for ten years, where they have made many close friends, who, though they regret their departure, wish them great success in their new home.

Cadman Trio Entertained.

Another success is experienced by the Cadman trio who returned last evening from La Jolla, where they gave their remarkable drama "Hawatha" at the Woman's Club House before an assemblage of about 800 persons, nearly 200 of whom were school children of the advanced grades.

The club house where this entertainment was given was presented to the Woman's Club of La Jolla by Miss Scripps, who is a member of one of the wealthiest families in Southern California, and is one of the most beautiful club buildings of the west. Needless to say, the Cadman trio delighted with their originality at yesterday's meeting just as they have at their entertainment given here.

At the close of the performance yesterday, Mrs. Parks, a club member presided at a delightful tea in the club tea room in compliment to the Cadman trio. Mrs. F. W. Slabaugh, soloist, Mrs. Garrett, character artist and Miss Alma Geiger, pianist.

Legion Gives Dance.

The American Legion will give a dance at Elks Hall Friday, Nov. 28, at 8:30 p. m. All service men and their ladies are invited.

Interesting Orange Wedding.

Miss Esther Dierker, daughter of Mr. and Mrs. George Dierker, North Tustin street, Orange, and John Eltiste, son of Mr. and Mrs. M. Eltiste, of the M. Eltiste implement firm at Orange, were quietly married today at the parsonage of the St. John's Lutheran church, Orange, the pastor of that church, Rev. N. F. Jensen, officiating. The Misses Anna Eltiste, sister of the groom, and Elma Dierker, sister of the bride, were the only attendants at the service.

The bride was most becomingly gowned in a tailored suit of gray tulle, wearing a large black hat. She wore a corsage bouquet of pink roses.

After the ceremony, Mrs. George Dierker, the bride's mother, gave a delightful reception for the happy couple. Those present at the reception, beside the host and hostess, were Mr. and Mrs. M. Eltiste, Mr. and Mrs. John Eltiste and the Misses Ella Klauer and Anna Eltiste.

After a short honeymoon trip, Mr. and Mrs. Eltiste will be at home to their many friends in Fullerton, at which place the groom's father recently established a branch of his Orange implement store.

Annual Dinner

Yesterday Mrs. Eva Bell, department president of the Daughters of Veterans, accompanied by her secretary, Leonore Ward, spent a delightful day with the comrades and daughters belonging to Anna Ella Carroll Tent No. 9, at Sawtelle.

This tent gives a bean dinner annually to their comrades members, and it is a joyous and happy occasion. Following the dinner, which was served promptly at 12 o'clock and consisted of a variety of good things, besides "beans" the company gathered in the tent room, where an excellent program was given.

Della Bishop, a gifted member of the hostess tent, brought greetings to the department officers and other visitors present.

Department President Bell made a charming little speech in response. Short talks were given by other visitors, including several of the veterans. The musical and reading numbers were very enjoyable. Later the regular business meeting and inspection of the tent with Mamie Deems, deputy inspector, was held.

In the evening the ladies attended the meeting of Jessie Benton Fremont Tent No. 4 in Los Angeles, and Department President Bell acted as inspection officer for this tent.

After their year's work is ended the officers entertained will still cherish the memory of the pleasant hours spent with members of these two tents.

Ebell Meeting

The Ebell Society yesterday in its annual observance of Founder's Day, confessed that it is now a quarter of a century old.

In 1894, forty women of Santa Ana

Delicate Mothers

Vinol, our Cod Liver and Iron Tonic, is the best remedy for Nervous, Run-Down, Anaemic Conditions.

This Letter Proves It:

Kenton, Del. — "I suffered from a nervous, run-down condition and no appetite. I keep house and live on a farm so had to keep about my work as I have five in the family. My druggist recommended Vinol as the best medicine for my condition. I felt better after taking the first bottle. It has given me a good appetite, I sleep better and feel stronger in every way." — Mrs. J. HERMAN WILDS.

It is the Best and Cod Liver Peptones contained in Vinol aided by Iron and Hypophosphites which makes it such a famous blood-maker, nerve builder and strength creator. Besides Vinol is not a secret medicine. Its full formula is printed on each package.

ROWLEY DRUG CO. AND DRUGGISTS EVERYWHERE.

and its vicinity met at the home of Mrs. J. R. Medlock and organized The Ebell Society of the Santa Ana Valley. The president chosen was Mrs. W. S. Bartlett, then of Tustin, but now for many years a resident of Los Angeles.

In the twenty-five years that have passed since then Santa Ana has grown by leaps and bounds, and Ebell has grown with the town, and now has a membership of 319.

Community singing led by Mrs. H. M. Sammis with Mrs. A. J. Padgham at the piano opened the program.

Greetings were read yesterday from Mrs. Bartlett and from Mrs. E. D. Bus of Bakersfield, who followed Mrs. Bartlett as president. A feeling of sadness pervaded the assembly because of the critical illness of Mrs. James S. Rice, one of Ebell's founders, who is especially loved, and who, until last year, has always been present at the annual celebration.

A report of the recent Southern District Convention held at Ontario was given by Mrs. C. F. Crose. The Day Nursery chairman, Mrs. Arthur Lyon, reported that institution in a flourishing condition. A box of clothing from a class at the German church had been an important gift of the month, and was greatly appreciated.

The curator, Mrs. N. A. Beals, announced that the Drama Section will meet hereafter on the first Friday of each month, and the Tustin Literature Section on the first Tuesday.

Mrs. A. J. Lawton, state president of the Women's Legislative Council, and Ebell's chairman of legislation, spoke briefly of the work to be done by the Legislative Council, and of the opportunity to be offered every woman to help in the work. At each session of the legislature, three bills of special interest to women will be backed by the Legislative Council, which is stated Mrs. Lawton, the only organization in the state which coordinates all other women's activities.

The three bills sponsored at the last session were the community property bill, the bill providing for a farm for delinquent women, and the bill increasing the appropriation for primary schools. All were passed, but the community property bill was held up by referendum, and will come up at the 1920 November election.

Miss Theresa Cogswell of Pomona, recently returned from overseas service as a canteen in the Y. M. C. A., during which she traveled over France, Belgium, and occupied Germany, gave the Ebell a very interesting talk. Miss Cogswell's subject was "America Makes a Reputation," and was presented from an unusual angle.

The speaker did not dwell upon the American "chinks" of French, Belgians, or Germans, but upon what they think of the Americans. America, declared the speaker, had been discovered anew by France, Belgium, England and Germany, and the rediscovery ranks with Columbus' discovery in importance. The little, petty misunderstandings will all clear away, and the America that the Allies

will remember is the America that fought with them so valiantly to end the war.

Preceding the afternoon meeting, Mrs. A. J. Lawton was the guest of honor at a luncheon in James' gold room, with the Ebell officers, committee chairmen, department leaders and charter members as her hostesses. Ebell is proud of Mrs. Lawton's election to the very important office of state president of the Women's Legislative Council, as well as for her remarkable record in war work, and took this occasion to tell her so. Mrs. Lawton was presented with a beautiful basket of yellow baby chrysanthemums.

OBITUARY

Morrison M. Fay was born in Bowling Green, Ohio, August 27, 1849. When a small boy he moved with his parents to Council Bluffs, Iowa, where he grew to manhood, receiving his education at Tabor College, and Iowa State University.

In 1872 he married Miss Alice York, who survives him. They made their home in Council Bluffs, later moving to Nebraska. On account of Mr. Fay's failing health, in 1902 they removed to Montrose, Colorado, where they lived until one year ago, when on account of Mrs. Fay's delicate health they decided to spend their remaining days in the milder clime of California.

In his active life Mr. Fay devoted himself to the raising of fine stock. With Mr. Fay at the time of his death Sabbath afternoon, November 23, 1919, were his wife and two daughters, Eleanor and Ruth.

The surviving members of the family, besides the wife, are two sons, M. M. Fay, Jr., Butte, Montana; Justin B. Fay, Montrose, Colorado. Five daughters: Mrs. Walter J. Williams, Delta, Colorado; Mrs. Albert W. Yoxall, Bakersfield, Calif.; Mrs. Earl Rule, Montrose, Colorado; Miss Eleanor and Ruth of Santa Ana.

PERSONALS

Mrs. J. M. Akin returned yesterday from Portland, Oregon, where she has been on business for the past five months.

James W. Rice went to Los Angeles this morning to visit his mother, who is very weak but still conscious.

Mrs. A. J. Crookshank was a morning P. E. passenger to Los Angeles.

Mrs. J. W. McCormac traveled to Los Angeles over the P. E. today.

W. E. Maryatt of Seattle is here upon a visit to his brother, Judge O. H. Maryatt. This is the first visit to the city of the brother.

The Western Union Telegraph Company announces resumption of its direct service with Belgium, through restoration of its special wire from London to Antwerp which has been interrupted since the beginning of the war in August, 1914. The restoration of its direct connection with Belgium along with the recent restoration of its Dutch cable connections of the Western Union as they were before the war—its direct service with England and France not having been interrupted.

Few Drops of "Freezone," Then Lift Corn Right Off

A tiny bottle of "Freezone" costs so little at any drug store; apply a few drops upon any corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off with your fingers. Truly! No humbug!—Adv.

Arrange Fine Program for Concert By Rice Tonight

A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel listless, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It can not be trusted any more than a leopard or a wild cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

AMUSEMENTS

NAZIMOVA'S OWN VERSION

The amazing Russian artist, Nazimova, is presented in the dual guise of star and dramatist in her newest production, "The Brat" at the Princess Theatre tonight and tomorrow. Nazimova not only plays the difficult but highly emotional role of "the brat," but it was she who adapted it, in collaboration with Charles Bryant, from the original stage play written by Maude Fulton and in which Miss Fulton starred throughout the United States and Canada.

A number of Nazimova's own ideas are incorporated in the screen version of the great stage success, in the form of added incidents and twists in the plot. Nazimova, who is an accomplished linguist and musician as well as the foremost actress on the screen today, took, as part of her education for the stage, a course in stage direction in Russia. She is both producer and star in her own productions, and her acquaintance with the world-famous books and plays of literature is intimate and extensive.

Capacity of Baptist Church Taxed By Music Lovers Who Are Delighted

The capacity of the First Baptist church was taxed last night to accommodate the large number of music lovers who assembled to hear Leon Rice in his program of vocal selections, he being accompanied by his wife, Mrs. Jenie Rice, at the piano. Recognized as one of the foremost tenors in America, he electrified and held spellbound the entire assemblage for two hours during which time he rendered a program of the most popular pieces of the day.

He won the hearts of his audience at the start and his efforts were greeted with thunderous applause. There was nothing theatrical about this charming vocalist. He stands almost motionless, with never a gesture, but he sings with such expression in his voice, with such an intensity of feeling, of force, of tragic and dramatic power, that his auditors are carried to the scenes embodied in the songs.

His voice is remarkably sweet and he sings with that naturalness which is the secret of the best in vocalism. He is a singer whose every tone, syllable and word conveys a meaning to the listener and he sings in such a manner that one is held captivated.

He believes that the words should be selected as carefully as the musical text and that they should be interpreted so they will be understood. His enunciation, tone, coloring and shading leaves nothing to be desired—except a repetition.

His second concert will be given at the church tonight, the program starting at 8:30. The late hour is to give those who want to attend the Dixon lecture at the United Presbyterian church an opportunity to do so, and then enjoy his program. There is no admission fee charge, a collection being taken.

The program for tonight is an excellent one and embraces about sixteen numbers.

INTEREST IN CHURCH MEETINGS AT TUSTIN

TUSTIN, Nov. 25—Evangelist Shepard of Portland, Ore., has been delivering prophetic lectures in the Advent Christian church of Tustin during the past week and interest in them is greatly increasing.

His subjects for the week are: Tonight—"What is Coming Next? A World Democracy or a World Kingdom?" Wednesday—"Goodbye to the Turkish Government, What Next?" Thursday—"Who is the Anti-Christ?" Friday—"Capital and Labor, or Present Labor Conditions a Subject of Hebrew Prophecy."

Sunday evening—"The League of Nations—The Peace Cry of the Nations—A Bible View."

FOUNDER MINING TOWN OF NOME IS DEAD

ORANGE, Nov. 25—Mark Anthony, brother of Mrs. L. F. Coburn, died on Sunday night at midnight at the home of his sister on South Grand street, of heart failure. Mr. Anthony was 56 years of age, and not having been in good health for quite awhile, about six weeks ago came south from Del Monte county, where he had been a successful rancher with the hope that the change would be beneficial. Mr. Anthony was prominent in political and financial circles, going to Dawson, Alaska, during the gold rush. He was one of the original founders of Nome

and well known in that part of the country. Mr. Anthony leaves a wife and mother, also one brother and two sisters. The body will be sent to Del Monte county for burial.

Aluminum Shower

An aluminum shower was given for Miss Esther Dierker at the home of her aunt, Mrs. Ben Dierker on E. Palmyra avenue. Pink umbrellas, both large and small were suspended from the ceiling of the living room, while pink roses and pink cupids decorated the dining room. Pink roses and cupids also adorned the tables upon which light refreshments were served. The gifts for the bride to be were presented in a beautiful and unique way. Little Marie Dierker, dressed in white was hitched to a small white wagon, with pink canopy, and driving her and also presiding over the presents, was little Flora Dierker, the dainty pair making a most charming picture.

Those present were Mrs. M. Eltiste, Mrs. George Dierker, Mrs. Henry Bandick, Mrs. Herman Bandick, Mrs. Fred Dierker, Mrs. Harry Dierker, Mrs. E. J. Bandick, Mrs. F. Bandick, Mrs. Ed. Dierker, Mrs. George Ban-

dick, Mrs. August Eltiste, Mrs. J. H. Benne, of Dodge, Neb., Mrs. H. Holsten of Dodge, Neb., Mrs. Leona Streecher, of Dodge, Neb., Mrs. William Kogler, Misses Weiss, Tillie Dierker, Alma, Lueila and Celeste Dierker and Matilda Bandick.

Enslay Campbell Honored

MAP SHOWING LOCATION OF THE BAILEY HALL & CO. OIL LEASES IN THE NEW

LOUISIANA OIL FIELDS

As shown on the map, the Bailey Hall & Co. Oil Leases are located on the Sabine Uplift, the oil and gas bearing region of Louisiana, surrounded by producing oil fields, located on both sides of the first cross fold south of the cross fold where the Giant Gushers are now being brought in, attracting the attention of the world. We bought a large acreage, several thousand acres, of oil leases, as shown on the map, in September at wholesale prices, BEFORE THE BOOM, which is now on.

Any oil man can see the value of our location. Experienced oil men are our best and biggest buyers. W. B. McCormick of McCormick & Smith, big operators, have just made location for their well in Section 17, Township 10 North, Range 10 West, RIGHT AMONG OUR LEASES, as announced this week in lengthy articles in both the Texas Oil Ledger and Louisiana Oil News. Mr. McCormick is famous as the discoverer of the first gas fields of Louisiana and HE KNOWS WHAT HE IS DOING. If it is good enough for Mr. McCormick, it is good enough for you or any oil man or oil company. ENOUGH SAID.

We were fortunate in being in Louisiana in September, when the big gusher started to come in. We saw our opportunity. We took advantage of it. WE BOUGHT ALL WE COULD, FOR OURSELVES AND OUR CLIENTS. Part of it we are keeping and IT IS NOT FOR SALE AT ANY PRICE. We are going after the oil. We have already let contract and paid for erection of 112-foot derrick and rig and have deposited CASH BOND in the bank as guarantee that we will drill ourselves. We are telling you this so you will see that WE MEAN BUSINESS AND HAVE RISKED OUR OWN MONEY BEFORE ASKING YOU OR OFFERING YOU A CHANCE TO GET IN ON IT AT ALL.

Part of our leases we are selling to our clients at the initial wholesale price of ONLY \$25 an acre, in tracts of 5 to 160 acres, GIVING YOU YOUR CHOICE OF LOCATIONS SUBJECT TO PRIOR SALE. We urge no one to buy. We consider WE ARE OFFERING YOU AN OPPORTUNITY, A PRIVILEGE, WHEN WE OFFER TO LET YOU IN ON THIS BARGAIN OF OURS AT THE PRICE OF \$25 AN ACRE. We solicit the strictest investigation from oil men and operating companies desiring to secure acreage in the new fields, also speculators and investors desiring a chance to make money in the oil fields, people who cannot go there as we did, before the boom started, and secure acreage at bargain prices.

THIS IS A REAL OPPORTUNITY TO MAKE A SPECULATIVE INVESTMENT IN THE NEW OIL FIELDS AT A BARGAIN PRICE—AN INVESTMENT WITH POSSIBILITIES OF ENORMOUS PROFITS DURING THE COMING MONTHS AS NEW WELLS ARE BROUGHT IN AND THE BOOM GROWS. IF YOU MISSED YOUR OPPORTUNITY IN TEXAS DURING THE PAST YEAR, WHEN OIL LEASES ADVANCED IN VALUE IN A FEW MONTHS FROM A FEW DOLLARS AN ACRE TO AS HIGH AS \$10,000 TO \$25,000 AN ACRE, THEN DON'T MISS THIS. YOU MAY NEVER GET ANOTHER CHANCE LIKE IT. THE PRICE IS GOING UP. WE RESERVE THE RIGHT TO RAISE IT ANY DAY. COME IN AND SEE US, WRITE OR WIRE.

| 5 Acres | 10 Acres | 20 Acres | 40 Acres |
|---------|----------|----------|----------|
| \$125 | \$250 | \$500 | \$1000 |

A SMALL INVESTMENT NOW MAY MAKE YOU A FORTUNE IN A FEW MONTHS.

LOS ANGELES, CALIFORNIA.

GROVE READY TO GO TO BAT ON EXCHANGE

Farm Center Men Enthusiastic Over Institution of Unit at Once

Garden Grove today is ready to go to bat with a new mutual telephone exchange and within the next two weeks dirt will be flying in development of the first unit to be constructed along the plans of the Orange County Farmers and Merchants Association, organized for the purpose of instituting a mutual system throughout the county, with free switching within the county lines.

At an enthusiastic meeting of the Garden Grove Farm Center last night, definite action was taken with ninety of the representative farmers and business men of the district in attendance. Arrangements were made to have a telephone engineer make a survey of the district at once and plans were made to have the exchange under way within two weeks.

Chas. Eygabroad, President, W. B. Woodrough, secretary, and H. A. Lake, director, of the county association, were in attendance and presented the situation as it stands today.

Practically every man at the meeting agreed to go into the exchange there and pay his proportion of the cost, the unit later to be merged with the county system, and if that fails, to become a permanent individual exchange to serve patrons of Garden Grove.

A meeting of the directors of the Orange County Farmers and Merchants Association will be held in this city next Tuesday, at which it is expected to have all the legal matters in connection with organization up for final action. With these questions settled the organization will be in position to start a county wide canvass for members.

The Garden Grove people will meet on the following Thursday to hear the report of action by directors and transact further business that might be necessary to the starting of the exchange there, including appointment of committees to have charge of the active steps.

SAN DIEGO EXPECTS BIG AUTO CARAVAN

SAN DIEGO, Nov. 24.—A veritable caravan of automobiles from all points in Southern and Central California is expected to make its way down the state highway November 30, bearing visitors to the Trans-Continental Railway celebration in this city, December 1 to December 6, inclusive. The Automobile Club of Southern California has called upon all its members to motor to San Diego for the fiesta and thousands of San Diegans are writing to their friends to visit San Diego and help celebrate the greatest event in the city's history.

The Santa Fe railroad is preparing to handle unusual traffic during Trans-Continental Week, and the stage companies, operating between San Diego and Los Angeles, are offering special inducements to excursionists. Most of the visitors from Arizona, New Mexico and the Imperial Valley will make the trip over the new San Diego & Arizona railway, the completion of which is the nucleus for the celebration.

A feature of the parade December 1 will be automobiles bearing about 20 pioneers of San Diego, who made so many unsuccessful attempts in the early days of the city to construct the railway that has now been completed by John D. Spreckels. These will include George W. Marston, pioneer merchant. It was the dream of all pioneer residents of the city to put through a trans-continental line to the East, but they never succeeded in laying a rail and now that John D. Spreckels has accomplished a task that they had learned to regard as impossible, these pioneers who are left are wild with joy.

CONSTANTINO, GRAND OPERA SINGER, DEAD

LOS ANGELES, Cal., Nov. 25.—Signor Florence Constantino, Spanish grand opera star, who made Los Angeles his home, died November 18th, after a nervous collapse in Mexico City, according to a message received by Constantino's attorney in Los Angeles.

Mrs. L. K. Camp Tells How Cuticura Healed Her Baby

"My baby broke out in a rash that ran into her hair, and caused her to want to scratch all the time. It was very painful, especially in the evening when we tried to put her to sleep. She was in this condition for about two months, and we tried several things, but without success. Then my mother wrote me about Cuticura Soap and Ointment, and we used two cakes of Cuticura Soap and one box of Cuticura Ointment, and now she is completely healed." (Signed) Mrs. L. K. Camp, Box 662, Hayden, Ariz.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health. The Soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume.

Soap 25c, Ointment 25c and 50c, Talcum 25c. Sold throughout the world. For sample each free address: "Cuticura Laboratories, Dept. H, Malden, Mass."

Cuticura Soap shaves without mug.

The Folks Back East

How long has it been since you saw the folks back east? wouldn't you like to see them now, and talk over all the things that are in common dear to you? The cost of traveling is high and it is a hard matter to pay the folks "back home" a visit. The best thing you can do is to send them a new picture of you and your family. My, how they'll appreciate it. You'll give them many a pleasant hour through a photograph and you'll cement a close relation that you wouldn't have broken for the world. A photograph will make up for the times when you should have written a letter but didn't. Let us make those pictures. We will give you a perfect portrait without much expense.

TAX PAYING TANGLED BY BIG VOLUME OF REALTY DEALS

\$2160 OFFERED FOR GARBAGE COLLECTIONS OF YEAR

Council Figures on Velvet By Gathering Refuse With Municipal Equipment

Paper and pencil were requisitioned last night by the city council in "figuring" out whether the city would lose or gain by taking over the job of collecting the garbage of the city or by letting it out by contract.

The city has been paying \$300 per month for collection of garbage and trash and last night bids were opened for the sale of the garbage, with the city collecting it. Dr. C. E. Price submitted a bid of \$2.16 per ton, delivered to him at a point within the city later to be designated.

It is estimated that the garbage for the year will average about 1000 tons, which means an income of \$2160 per year. Against this must be charged off the cost of collecting with city equipment. Without interest on the investment and repairs on equipment entering into consideration, a rough estimate placed the annual cost under city operation at about \$3360 per year.

In addition to receiving the monthly sum of \$300 the garbage collectors have been getting the garbage. Combining the value of the garbage on the basis of Dr. Price's offer and the cost of collecting in the past, and charging off the costs under city collection, the city will be in velvet to the amount of about \$2460.

It is conceded that the truck and trailer to be operated in the garbage collecting department cannot take care of all the trash pick-ups and the amount of gain will be reduced by whatever it costs to gather that portion of the trash that the equipment cannot handle.

Will Co-operate in Work
Sanitary Inspector W. W. Chandler is to have supervision of the collections of garbage and he and Street Superintendent Hoy will co-operate in the work of picking up trash, and the street department taking care of what the sanitary department cannot gather. The city will take over the work on the first of December.

The offer of Dr. Price was accepted, and the mayor and city clerk were authorized to sign a contract with him for the period of one year.

Men who were in the city a few weeks ago discussed plans for buying the garbage and manufacturing fertilizer with a plant to be located here, did not submit a bid.

That the street sweepings of the city are of considerable value was demonstrated with the opening of bids, when Shelly Horton submitted offer of \$550 for one year, \$1150 for two years and \$1300 for three years. His offer for one year was accepted, the council not caring to tie up for three years because of uncertainty as to cost of collecting.

A. D. Pyatt offered \$275 per year for the sweepings and fertilizer at the

(Continued on Page Ten)

High School Cadet Band Entertainment Given at Temple Proves Success

SPLENDID musical features, ranging from effective band numbers to dainty solos; humorous readings; tableaux and a scene from "Rip Van Winkle"—these were some of the things that were enthusiastically received at the Temple theater last night by what was today declared to have been one of the most appreciative audiences that ever listened to an amateur entertainment in Santa Ana. It was a performance given as a benefit for the Santa Ana High School Cadet Band, and tonight, when the program is repeated, it is certain that an audience even larger than last night's will be present.

Clarence A. Gustlin, to whom goes the credit for having organized and trained the cadet band, gave a short address prior to the opening of the program, saying that he believed it would be a splendid thing if the English custom of beginning entertainments by a rendition of the national anthem were more widely emulated in America.

Play Spirited Pieces
"The Star Spangled Banner" was then played by the band, the audience joining. Following this, Gustlin said that "I Love You, California," was a song deserving of being more widely known in this state. The piece was spiritedly given by the band, as was also John Phillip Sousa's famous and stirring march, "The Stars and Stripes Forever."

Next on the program were "Ameri-

ca, My Homeland," by Salter, and "One Morning, Oh So Early," splendidly sung by the younger girls' glee club of the high school.

Two other band selections followed, "The Saldiers' Chorus," by Gounod, and "The Fraj March," these closing the first part of the program.

Ernest Crozier Phillips then gave a humorous reading, "The Ship of Faith," in which the speaker, in the dialect of a negro minister, exhorted his hearers to come aboard the ship. It was a number received with hearty applause.

Splendid Soprano Voice
Miss Holly Lash was next on the program, with the "Carmena Waltz Song," by Wilson, and with the "Damasus Triumphal March," by Coster.

PARCELS GOING OVERSEAS MUST START SOON

Postmaster Overshiner states that any-one wishing to send Christmas parcels for American Expeditionary forces in France or Germany should mail them so as to reach the port of embarkation, Hoboken, N. J., not later than December 8. Christmas parcels must not exceed seven pounds, nor 72 inches in length and girth combined. For the American forces in Siberia, Wawalian and the Philippines, weight should not exceed 20 pounds and these should arrive at San Francisco not later than Dec. 1st.

Postmaster Overshiner is expecting but few articles to be sent from Santa Ana to either France or Siberia, for there are but few Orange County men left in either of those countries.

It will be a very different thing this year from what it was last year when Christmas packages in large quantities were sent out through the Red Cross," said Overshiner.

Good Guess

Good Reasons for Doing Christmas Shopping Early

(From the Sacramento Bee)

THE early bird, it is said, gets the worm, and this applies to shopping for Christmas.

For a number of excellent reasons it is wise to make purchases of Christmas gifts well in advance of the day.

Some of these are selfish reasons, but they operate to a large extent for the benefit of all concerned; especially the sales people and other workers in stores.

Every advantage is in favor of the early shopper as against the tardy. By this time practically all holiday stocks have been received and the rush and crush of Christmas shopping begin and increase until actual arrival of the holiday. That means much discomfort as well as greatly reduced chances of purchasing just what one desires for gift-making.

The stores are not now crowded as they will be later on, when the rush and crush of Christmas shopping begin and increase until actual arrival of the holiday. That means much discomfort as well as greatly reduced chances of purchasing just what one desires for gift-making.

It is to be remembered, too, that there is a strong probability of much wet weather before the last week in December, the discomfort, inconvenience and exposure of which early buyers avoid.

There is much satisfaction, also, in realizing as Christmas draws near that all gifts have been bought as planned, and that the best to be had for the outlay has been obtained. Then the days immediately before the holiday may be devoted to social enjoyments, decorative or charitable work, and not of necessity be given up to cares and annoyances of hasty shopping.

A still greater Christmas satisfaction, however, should be that a kindly regard for the girls and women who toil behind the counters at this season has been felt and acted upon, and that ac-

SANTA ANA ELK PARTY VISITS EL CENTRO

Ending a trip of four days in which they escorted Joe C. Burke of Santa Ana, district deputy grand exalted ruler, California South, through an official visit to the Elks lodge at El Centro, a party of twenty-one Elks reached home last night.

Burke as representative of the grand exalted ruler of the Elks is paying official visits to all Elks lodges in Southern California, and on his visit to El Centro he was accompanied by a number of Santa Ana Elks. The Santa Anans went by automobile to San Diego on Friday and crossed the mountains to El Centro on Saturday. Saturday evening they were entertained at a superb duck dinner by the leading Elks of El Centro.

Saturday evening El Centro's lodge meeting was attended. Sunday morning Otto Ohlmsed, exalted ruler of El Centro lodge, escorted the visitors to Calexico, where, "under convoy" of Elks of that place, those Elks from here who wanted to do so got passports and crossed over into Mexico for a few minutes.

Leaving Calexico, the Elks went directly to the ranch at Heber owned by William C. and Benjamin W. Jerome of Santa Ana, who were with the party. The Santa Anans have a fine ranch at Heber. This year the principal product of the ranch is sheep. The Jerome brothers have about 1000 head of the mutton crop producers. At this place Willis Duffy, caretaker at the local Elks club, was on hand and in his element. Under his direction a fine sheep barbecue had been prepared and it was served to the Santa Anans and about 150 members of the El Centro lodge.

Rain in the valley made it inadvisable for the visitors to attempt the trip over the mountains Sunday night, as had been planned, and the start was delayed until yesterday morning.

To those who were unfamiliar with the valley, the trip was a revelation. The great expanse of valley was a wonderful view in itself and the journey through its fields was of deep interest. The Elks have returned with high praise for the hospitality of the El Centro Elks.

Members of the Santa Ana Elks lodge who were on the trip are J. C. Burke, Dr. M. A. Patton, J. A. Ketscher, D. A. McNair, L. J. Dale, W. J. Cheney, H. W. Woodman, Jr., R. W. Collins, R. J. Schulte, H. L. Wakeham, H. M. Schissler, Ed. King, Jack Cope, M. E. Metcalf, C. J. Duncan, W. C. Jerome, B. W. Jerome, C. T. Johnson, C. D. Overshiner, W. W. Wasser, J. Fred Eves, member of the local lodge, met the party at El Centro. C. J. McNaughton, who directed the Elks show given last week was in the party. M. E. Metcalf and C. J. Duncan were accompanied by their wives.

An Alibi

The lady (who was on the point of buying the bird)—"Oh, my good man! Such language! Dreadful!"
The Merchant—"Is it really, lady? You surprise me; I was takin' it for only so much meanin'less gibberish!"
—From Blighy, London.

Reed's Butter Scotch Patties, from Chicago, Illinois. The purest candy made. These delicious Patties, that everyone enjoys, are now on sale in Santa Ana. One-pound, net weight, attractive cans, sixty cents a can. Mateer-Gammel Drug Co., 106 West

PER CAPITA OF TWO CENTS PER DAY IS ASKED OF MEMBERS

Dean McCormick Says Ministry Must Have Materials For Progress

"All that the Protestant Episcopal Church is asking of its members is that the per capita contribution of one cent a day be doubled," declared Dean Paul McCormick of St. Paul's Pro-Cathedral Church of Los Angeles in an address to members of the Church of the Messiah of this city last night.

"For the religious work of the church, the contributions of its members has averaged less than they paid for chewing gum, and far less than they paid for automobile tires."

Dean McCormick's visit here last night was in furtherance of the Nation-Wide Campaign for the Episcopal Church. That movement is not for financial ends alone, but is rather for the purpose of stirring up the members of the church to a realization of the opportunities and duties of the church of today.

The Church of the Messiah recently divided its membership up into teams, and these teams have been carrying out a program of visits and other church work. The result has been to increase the attendance at church and Sunday school services.

"The Nation-Wide Campaign," said Dean McCormick at last night's mass meeting, "is a direct outcome of the war. In many respects the war was a tremendous curse, but in others it has proven to be a blessing. It has forced upon church people a consciousness of their duties to the world that otherwise they might not have received for many years."

Compared to Army
"The church is to be compared to the army in many ways. It is just as useless to expect the church without proper materials to carry on successful work as it is to expect an army without weapons to fight successfully. The ministry has not had proper materials. Salaries have been so small that great numbers of ministers have not been able to do many of the things they ought to have done to keep up with their work. For instance, scores of ministers of the gospel have been unable to buy the books that were necessary for them to have in order for them to keep up with theological thought."

"Taking this country over, members of the Episcopal church have contributed liberally to every charity, to every war cause. Per capita, the Episcopal church is the richest religious commune in America, yet its contributions received for religious work, for carrying on the work of Christ's Kingdom on earth is less than is spent per capita by its church members for chewing gum and far less than for automobile tires. All that is asked is that the present per capita contribution of one cent a day be doubled. That will give the church the \$2,000,000 that it is asking."

Church Strategy Weak

"The war has developed the point that our church strategy has been weak. The strategy of the Allies was weak for three years. It was when unity was secured that the Germans were routed. Church tactics must be re-organized along the same lines. There must be unification of effort."

"In every community where there are churches must come a realization of the material value of the churches. I mean value in real estate and value in industry. You don't suppose that property on Broadway in Los Angeles would be selling for \$5,000 a front foot if Los Angeles had no churches. The activities of churches in a city of any size you may wish to consider are of big commercial value to that city. Church property is not taxed, but the church more than makes up to a community whatever it may lose in taxes."

"In the Nation-Wide Campaign the aim is not financial, but it will take money to do the things that must be done in order to carry forward the spiritual work. In the Nation-Wide Campaign, the Episcopal church is endeavoring to bring its members to a deeper interest in their duties as Christians."

Cross at San Francisco To Be First Episcopal Shrine

Prayerbook Cross n Golden Gate Park.

Prayerbook Monument In Golden Gate Park Will Be the Forerunner of a Chain of Wayside Markers Along Continent's Auto Boulevards

SAN FRANCISCO, Nov. 25.—San Francisco shortly is to have the honor of the first shrine ever consecrated by the Protestant Episcopal church and the first, it is confidently believed by members of the church, in a chain of wayside shrines along the mighty automobile highways which now span the continent.

Turned by the griefs of war to a more devout consideration of affairs religious and stirred to militancy by the nation-wide campaign now forward within the church, Episcopalians of the Bay Cities have laid before Rt. Rev. William Ford Nichols, D. D., Bishop of the Diocese of California, a proposal to consecrate and proclaim the historic "Prayerbook Cross," in Golden Gate Park as a shrine for all wayfaring Episcopalians.

The "Prayerbook Cross" is a magnificent pile which surmounts one

of the most picturesquely beautiful hills in Golden Gate Park.

The cross was consecrated seventeen years ago as a memorial to the first religious service ever held on the Pacific Coast in the English language. On June 24, 1879, that hardy buccaneer, Sir Francis Drake, missing the port of San Francisco entirely owing to fog and storm, landed at what is now known as Drake's Bay, northward of San Francisco Bay.

In thanksgiving for the escape of the expedition from the storm they all "fell to prayers," in the quaint language of the chronicler of the expedition. The cross was erected by George W. Childs, of Philadelphia. The ceremonies in consecrating the cross as a shrine will be celebrated during the coming nation-wide campaign of the Episcopal church, as a memorial to the campaign.

FIRST PAYMENT IS DELINQUENT NEXT MONDAY AT 5 P. M.

Collector J. C. Lamb Urges Mails Be Used Instead of Trip to His Office

With hundreds of pieces of real estate in Orange county having changed hands since the assessments were made on March 1, County Tax Collector J. C. Lamb has found himself almost overwhelmed with straightening out tax paying snarls and knots.

"I have never had such a time since I went into office," declared Lamb. "People by the dozen come in and want to pay only part of the taxes against them because parts of their lands have been sold. Just as many come in to pay taxes on lands assessed to somebody else. I am very much afraid that taxes will go delinquent on a good many pieces of property that have been bought since March 1. The kind of case I refer to is the kind in which the purchaser thinks the taxes have been paid by the former owner."

The tangles in the tax collector's office are unavoidable when great numbers of pieces of property are changing hands. The situation is a reflection of the tremendous activity that there has been for months past in Orange county realty.

"We are taking care of the situation," declared Collector Lamb. "We stay with every tangle until it is straightened and the inquirer gets the information he wants."

Delinquent on Monday
First installment of 1919-1920 taxes will go delinquent at 5 p. m. next Monday, December 1. The penalty to be added for failure to pay the first installment by that time is fifteen per cent.

Tax Collector Lamb has added to his force of deputies in order to take care of the rush that can always be expected during the last week of a tax-paying time. The last Saturday and the last Monday are always big days in the collector's office, for there are always a large number of property owners who wait until as near the last minute as they dare before making their payments.

Under the old law, taxes went delinquent at 6 p. m. of the closing day. Under the new law the taxes will go delinquent at 5 p. m. Any person who actually waits until the last minute thinking that that last minute comes just before 6 p. m. next Monday will find himself facing a fifteen per cent penalty.

"It will be far easier for the taxpayer who has not yet paid his taxes," said Lamb, "to make his payment by check sent to me through the mail. Each taxpayer whose name appeared on the assessment roll for March 1 received a tax bill, a yellow sheet, from my office. That bill shows the amount due for first installment, the amount of the second installment, and the total. The taxpayer who would avoid standing in line at my office

city barns and P. C. Edmunds offered \$175 per year for the stable gleanings only.

Bids on the stable manure were rejected and the clerk directed to re-advertise for bids.

Will Enforce Wiring Ordinance

The council went into a long debate over the matter of enforcing the ordinance providing regulations for electric wiring. The matter came up on the request of Sweetser & Sedoris for replacement of an electric meter in an office adjoining the Alexandria pool hall on North Main. The service has been on for about two years, since which time the city has adopted an ordinance conforming to a state law, requiring that wires be enclosed in metal.

The ordinance gives the city electrician power to condemn all buildings not wired according to its provisions, and it has been the policy of the electrician to require places rewired when application is made for renewal of service that has been interrupted. In the application of Sweetser & Sedoris, the situation is one in which the room is a minor part of the whole building which is being lighted from wires put in some years ago.

Taking the position that everyone should be treated alike, the majority of the council voted to deny the application and in favor of following the provisions of the ordinance—which means that wherever electric service is discontinued in buildings not wired according to the latest ordinance, service cannot be resumed until the wiring conforms to the law.

To Open East Fifth

East Fifth street residents have been blocked from reaching their property in vehicles by reason of paving work in progress there. It was asserted by members of the council that the street had been closed for four months. The base has been completed for a month, according to statements made, and still the street is blocked, awaiting the finishing surface.

The street superintendent was authorized to serve notice on the contractor that if present obstructions were not removed by Saturday evening the city would proceed to remove them and charge the costs up to the contractor. It is proposed to make the street accessible to traffic until such time as it may be necessary to close it temporarily for applying the surface.

It was suggested that in future a time limit be placed on contractors for keeping a street closed because of paving operations and that investigation be made as to capabilities of the contractors to carry out proposed work within a reasonable length of time.

Shortage of material and labor is said to have been responsible for conditions that have obtained with reference to the East Fifth street job.

City Directory for S. F. Library
Upon request of the public library of San Francisco for a directory of the city of Santa Ana, the city clerk was directed to buy a copy of the latest issue and forward it to the library.

Request of Shaw & Russell that assurance be given that their subdivision would be accepted when completed map is presented and that they be permitted to sell lots and start buildings in advance of the completion of the street grading and sewerage, was granted, with the firm to give a bond of \$1000 guaranteeing that the street and sewer work will be done according to plans.

Chas. Havens was granted permission to close an alley running from Walnut to Pine, between Main and Cypress, for the purpose of cementing it.

Geo. Wells, of the firm of Wells & Bressler, appearing before the board and stating that the county had given him the contract for paving a ten-foot strip on Mabury street, between Fourth and First, the city council this week will investigate the situation with reference to having the property owners join in taking care of a ten-foot strip within the city limits, making the pavement twenty feet wide.

Permission was granted to M. R. Heninger to close South Ross street, between Camille and Fairview, while paving is in progress.

Boynton Resigns

Resignation of E. W. Boynton from the police force was accepted, effective Dec. 1. L. C. Rogers was appointed to fill the vacancy. Boynton is going to engage in the auto painting business at the corner of French and Third streets. "I am going to get away from the seven day grind," declared Boynton last night, when he was asked what his plans were. Painting is his trade.

T. J. Neal was given permission to construct an automobile approach at his place of business on East Fourth street.

Request of L. B. Hill for permission to store 50 gallons of gasoline at his residence at 1128 West Highland was granted.

Wright and West were given permission to hold boxing bouts at the Grand Opera House, subject to proper conduct and limited to amateur affairs.

The mayor was empowered to dispose of Liberty Bonds held by the city at par or better when such prices could be secured.

Street superintendent was authorized to install an electric light at the public auto camping grounds on West Walnut.

Lot Buyers, Beware

Lot buyers in Santa Ana want to look well into water and sewer features before buying, under a ruling made last night. The city will not run a main line on a street just for one house connection. When the sewer system was laid out the mains were

SCHOOL BAND SUCCESS

Solos, Readings, Tableaux and Scene From Rip Van Winkle, Please

(Continued from page nine)

Miss Lash, who has a splendid soprano voice, was charmingly supported in these 2 numbers by a combination of the boys' and girls' glee clubs of the high school. The songs were given an enthusiastic round of applause.

"Morn of the May" and "Welcome Home," two songs composed by Gustlin, were beautifully sung by Mrs. Russell Coleman. The latter composition was particularly well received, its tribute to both the living and the dead among the nation's heroes striking a pathetic chord in the heart of the audience.

A cornet solo, given by Julian Mathews, was so well received that he had to respond to an encore, giving "When Irish Eyes Are Smiling."

Two band selections, "Down Our Way," a lively barn dance number, and "Khaki Bill," a spirited martial piece, both composed by H. L. Watson brother of Miss Lella Watson, one of the teachers at the high school, proved unqualified successes. Whiting's "Till We Meet Again" was then played by the band. All three compositions were rendered with a touch almost professional.

Stage Indian Tableau

An Indian tableau, staged by the Athena Club of the high school proved one of the most artistic features of the evening. The girls were all in Indian costume. At the rear of the stage was a tepee. A campfire burned in the center and seated around this were the various characters, engaged in doing bead work, basketry and so on. The lighting effects were charming. The principal part in this tableau was taken by Miss Lash, who sang Cadman's "The Moon Drops Low." Supporting her were Misses Mary Geyer, Mary Hendrie, Alice Mateer, Helen Mateer, Bernice Bull, Veronica Merrick and Bertha Selway.

The program closed with a scene from "Rip Van Winkle," given by members of the drama department of the high school. The part of "Rip" was played by Major Carrier.

In its entirety the entertainment was splendid. The high school cadet band is composed of 45 members. It has been in existence only since early last spring, yet in that time Clarence Gustlin has perfected an organization that is a credit to Santa Ana.

FIRST TAX PAYMENT DELINQUENT MONDAY

(Continued from Page Nine)

may write out the check, attach it to the tax bill, and mail them to me. In due time he will get his receipt through the mail. That is the easiest and most satisfactory way to pay delinquent taxes. There is bound to be a rush these last few days.

"Care should be used in getting the correct amount upon the checks."

In order to relieve the congestion as much as possible, Lamb is keeping his office open every noon hour this week, excepting "Thanksgiving Day," when the office will be closed. The office will be open all day Saturday and Monday.

Woman to Woman

When a woman has been very much benefited by a medicine she can hardly refrain from telling other women about it. Mrs. L. O. Seitz, Lima, Ohio, writes "I have a very high opinion of Chamberlain's Cough Remedy. My mother had a severe bronchial cough for months. After taking numerous cough medicines without relief she was finally cured by Chamberlain's Cough Remedy. I take pleasure in recommending it."—Adv.

run on streets according to plots existing at that time. Since then it appears that many lots laid out to face on certain streets have had their frontages changed by owners wishing to sell at the best advantage. The result is that many lots today face on streets where there is no sewer main they being what originally were back part of lots. With the front sold off access to the sewer is cut off, and if connection is made it will be up to the individual owner to run his outlet to the main at his own expense. In many instances it is necessary to carry the line over a street for half a block.

IF THIN AND NERVOUS TRY BITRO-PHOSPHATE

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition. It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength can be up and doing.

CAUTION—White Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

HARRY PRICHARD IS CHOSEN LIEUTENANT

First Sergeant Harry Prichard was last night unanimously chosen to be second lieutenant of Company F, National Guard, succeeding J. C. Hayden, who found it necessary to resign because of increased duties incident to his promotion in the work of the Southern Counties Gas company here by whom he is employed. The election was unanimous, and took place at the regular weekly drill and meeting of the company, held at the Birch street armory. A "top" to succeed Prichard has not yet been appointed.

Short talks were made by Lieutenant Prichard, thanking the men for their consideration as evidenced in the election, by Captain A. E. Koepsel, who expressed the company's appreciation of Hayden's services, and by Hayden himself, who said he regretted very much that his duties forced him to quit the company, but he would still be with the men in spirit and wished the company all kinds of success.

Announcement was made that a shot will be held next Sunday at the range near the county park, and all members of the company who can, are asked to be at the armory at 8 o'clock Sunday morning for the trip, which will be made in an auto truck.

See the pretty dolls in Mater-Gemmel Drug Co. window—ten of them will be given away absolutely free—ask about them.

\$5,000,000

INTERNATIONAL COTTON MILLS

10 Year 7% Notes

Dated Dec. 1, 1919.

Due Dec. 1, 1929.

Incorporated in 1913 in Massachusetts, at which time it acquired substantially all the properties and securities formerly owned by the International Cotton Mills, Inc., including the Consolidated Duck Company and its subsidiaries. It is now the largest producer of cotton duck in the United States.

The properties owned or controlled include 19 mills containing over 190,000 spindles manufacturing all grades of cotton duck. Properties owned in fee and through directly controlled companies are located in the following places: Manchester, N. H.; LaGrange, Ga.; Hogensville, Ga.; Hamilton, Ontario; Newburyport, Mass.; LeRoy, N. Y.; Lowell, Mass.; Yarmouth, Nova Scotia.

CAPITALIZATION

| | Authorized | Outstanding |
|---|--------------|-------------|
| 10-Year, 7% Notes, due Dec. 1, 1929 | \$ 5,000,000 | \$5,000,000 |
| Preferred stock 7% Cumulative (par value \$100) | 10,000,000 | 5,000,000 |
| Common stock (par value \$50) | 5,000,000 | 4,832,744 |

Total market value of stock in excess of \$10,000,000.

Preferred stock pays dividends at the rate of 7%, and common stock at the rate of 8%.

Net earnings for 1918 before taxes were in excess of 12 times interest charges on this issue and about 6 1/2 times after taxes.

Net assets are nearly 3 times amount of this issue.

Sinking fund will retire at least 45% of the issue by maturity.

We recommend these notes and will accept your subscription at 100 AND ACCRUED INTEREST.

LECTURE ON CHRISTIAN SCIENCE HERE

A LECTURE ON CHRISTIAN SCIENCE

Entitled
Christian Science: The
Light of Truth
by
George Shaw Cook, C.S.B.

Member of the Board of Lectureship
of The Mother Church, The First
Church of Christ, Scientist,
in Boston, Mass.

A little more than half a century ago an earnest seeker for Truth—one who had long been buffeted by the unsatisfying philosophies of the human mind—was driven to the very borderland of mortal existence by the all but fatal cruelty of an accident. In the last extremity of human need this deeply religious woman turned unreservedly and forever away from matter of divine Mind as the one and only savior, and was restored to normal health. Having been healed by the power of God, it was only natural that she should have turned to the Word of God for an explanation of her cure. Patiently and prayerful studying the Scriptures for the purpose of discovering the Principle and law of her deliverance, this faithful woman—Mary Baker Eddy—continued her search until it was revealed to her that the real Christ, which enabled Jesus to heal the sick and raise the dead, is present with and available to mankind now.

This revelation of the truth was put to practical test by Mrs. Eddy and demonstrated beyond a shadow of a doubt, and was then embodied by her in the Christian Science textbook, "Science and Health with Key to the Scriptures," which was first published in 1875. Through the study of this book and the practice of its teachings, many were redeemed from sin and healed of inveterate disease, and some were turned back from the very gates of death. In this manner was formed the nucleus for the Christian Science church, which in 1879 was organized to "commemorate the world and works of our Master" and to "re-estate primitive Christianity and its lost element of healing" (Church Manual, p. 17). This church was later reorganized as "The First Church of Christ, Scientist, in Boston, Massachusetts," of which all authorized Christian Science churches are branches. The Mother Church and its many branches, together with the denominational activities of Christian Science, now constitute a mighty movement that is literally encircling the globe.

THE CHRISTIAN SCIENCE CHURCH
Without adaptation to the needs of mankind the Christian Science church is an institution would have no good reason for existence. In order to justify its presence among men, the church of Christ, Scientist, must be able to answer, not theoretically but factually, the all-important question, "What is Christian Science able to do for suffering humanity?"

The answer which it makes to this question is, "Christian Science heals sickness and sin. It breaks the bands of appetite and passion. It lifts the burden of fear and care."

Through the ministry of Christian Science, many thousands have been raised from beds of unspeakable pain. Others have been rescued from lives of immorality and vice. Others, still, have been freed from the bondage of poverty and incompetency. Now, it is possible that some of these persons could have recovered from their sickness under other forms of treatment without any treatment. It is probable that some would have been cured by different means and that others would have become prosperous in another way. But it is a fact that many of them were utterly hopeless and apparently helpless in their misery until Christian Science showed them a way out of it.

How were these people healed of diseases which, in many instances, baffled the physicians? They were healed by the Christ, Truth, which takes away the sin and heals the sickness of the world. They were healed by reason of the knowledge that sickness is not natural to God's nature, that it is not part of man's true nature. They have found that the fear of sickness and of other forms of evil is unnecessary because every base of evil is temporal and destructible. And, best of all, they have attained through Christian Science a more perfect understanding of God, they have learned that God is as the Scriptures declare, Life, Truth, Spirit, Love. God was revealed to Moses as I am, and surely I am can be nothing less than the one self-existent eternal Being of Life. In the thirty-second chapter of Deuteronomy God referred to as "a God of truth, and without iniquity, just and right is he," said "God is Spirit," or, as the revised version of the New Testament puts it, "God is Spirit; and they that worship him must worship him in spirit and in truth." John, the beloved disciple of Jesus, said: "He that loveth not knoweth not God; for God is love."

Christian Science also defines God as infinite, changeless, perfect, good, good, being infinite, is limitless capacity, presence, power, and activity.

Christian Science further declares God to be infinite Mind, or divine Principle. But when using Principle as a name for God, Christian Scientists do not think of something abstract. Mrs. Eddy, in Science and Health, seldom refers to God as Principle unless she combines it with the word Love. She says, for example, "infinite Principle," or "divine Love," and that Principle which is synonymous with divine Love must be loving, tender, and merciful as well as exact, variable, and impartial. So Principle as understood in Christian Science is seen to be the one ever present, ever operative, conscious, living, living Principle of being—the only source, origin, cause, or creator of all that really exists. The only basis or foundation of all reality.

CAUSE AND EFFECT
Since nothing is more certain than that effect must be like cause, Christian Science shows that God, the only

Cause, being Spirit, or Mind. His universe must be spiritual or mental. God's universe must, then, be a universe of thought. It must consist of thoughts of ideas that are Godlike—spiritual, good, harmonious, eternal, divine. This infinite universe of God or divine Mind, existing here and now, and embracing all creation, necessarily includes man as the image or likeness of God, Spirit, Mind. Thus we see that the present reality of man is in his mental or spiritual identity. This does not, however, refer to a finite mind, generally associated with the human brain, nor does it refer to a soul that is supposed to reside elsewhere in the human body, but it refers to man as the individual spiritual image, reflection, or idea of divine Mind. God. Mrs. Eddy says on page 475 of Science and Health, "Man is idea, the image of Love; he is not physique." A modern dictionary definition of idea is, "That which embodies the essential nature of something." So man as the idea of God, or divine Mind, is that which consciously and perfectly reflects, expresses, manifests, or embodies the divine nature. And this agrees with the Scriptural record of creation contained in the first chapter of Genesis, for there it says that God made man in His own image. But the seventh verse of the second chapter of Genesis says that "The Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life." The record of creation contained in the first chapter of Genesis and the account beginning with the seventh verse of the second chapter are so different as to be absolutely irreconcilable.

TRUE AND FALSE CREATION

The first record of creation declares that "the heavens and the earth were finished, and all the host of them." This finished universe of God is said to have been recognized by Him as being "very good." This very good and complete universe would be the record, included Man created "in the image of God." The second and materialistic account of creation is the very opposite of the spiritual record which precedes it. Man, instead of being the image of the eternal God, is said to have been made of temporal matter. In this story it is not even claimed that man is the likeness of God. Man was in the first chapter is recorded as part of God's perfect, finished creation, is here supposed to have been re-created or remodeled from clay. But why a divinely intelligent creator would have need to remodel a perfectly good universe or any part thereof is not explained.

If one accepts the first record of creation, he will be obliged to reject the second account if he would be logical. Christian Science accepts the first or Elohistic record as a statement of spiritual creation, and explains the second or Jehovistic account as an allegory evidently intended by its author to depict the belief in a material creation. That Christian believers in general and theologians in particular pay much more attention to the mythical account than to the scientific record is to be regretted. Their emphasis in sermons and otherwise is frequently laid upon what they term "fallen man." The tenacious belief in this myth of "fallen man," created by an anthropomorphic God, is responsible for all the ills to which flesh is heir. Mortal history is little more than a recital of the woes, the suffering, the tragedies which result from failure to discriminate between the true and the false. The supposed naturalness and inevitability of disease and death are due primarily to a false, material sense of man's origin and nature. Whereas the understanding that man is the spiritually created and immortal likeness of divine Mind makes freedom from these evils certain. According to Christian Science nothing is really natural but good, and nothing is inevitable but the triumph of good.

PUTTING OFF THE OLD MAN

Thorough understanding the supremacy, the omnipotence of good, Christian Scientists are proving step by step their ability to comply with the injunction of Paul to put off the "old man" (the mortal, material, sinful sense of man), and to "put on the new man" (the immortal, spiritual, sinless manhood), which "is created in righteousness and true holiness." In this endeavor they are finding that their success is in proportion to the faithfulness and persistence with which they return in thought to the fundamental fact which is the basis of all right thinking and living, namely, that when God made all that is and pronounced it "very good," He made man in His likeness; and that nothing has since happened or will ever happen to make or undo God's perfect work. The words of Ecclesiastes declare: "I know that whatsoever God doeth, it shall be for ever; nothing can be put to it nor any thing taken from it." And on page 557 of Science and Health Mrs. Eddy says: "Divine Science rolls back the clouds of error with the light of Truth, and lifts the curtain on man as never born and as never dying, but as co-existent with his creator."

According to Christian Science the putting on of immortality is not necessarily deferred until after passing through an experience called death, but may begin now and must continue until the perfect recognition of the immortality and supremacy of Life displaces all belief in the existence of something which is the opposite of Life—in sin, disease, death.

Christian Scientists admit that to human, or mortal sense, evil and matter appear real, but Christian Science agrees exactly with the prophet Habakkuk, that God is "or purer eyes than to behold evil." It explains that man as the perfect likeness of God cannot know something which God does not know. And Christian Science shows that the Mind which is God, infinite good, cannot embrace a knowledge of evil any more than light can include darkness. It explains that evil is contrary to the will of God, who is always good in purpose and in manifestation. Thus it induces the sinner to abandon his belief of satisfaction in sin and enables him to win forgiveness by forsaking sin. It is, therefore, a mistake to suppose that in teaching the unreal nature of sin, Christian Science encourages the indulgence of sin. The fact is that it awakens its students to the absolute least afraid of what others are think-

necessity of gaining a love for goodness that will enable them to abandon, willingly and gladly, not only the more flagrant forms of immorality and vice, but also the more subtle phases of evil. And Christian Scientists realize the need of recognizing sin or evil as a claim, or false belief, of the carnal mind in order that it may be demonstrated in human experience to be powerless and, in the absolute sense, unreal. For one is not likely to correct a moral error without first seeing it for what it is, or what it claims to be, any more than he would correct a mathematical mistake without first recognizing it. And just as mathematical error is not disposed of by ignoring it, so one cannot free himself from sin by ignoring it. Christian Science, therefore, shows the need of handling sin, or evil, as error, as a mistake, and of correcting it with Truth. Furthermore, it shows that true forgiveness of sin consists in its destruction, in the proof of its unreality. On page 497 of Science and Health Mrs. Eddy says, "We acknowledge God's forgiveness of sin in the destruction of sin and the spiritual understanding that casts out evil as unreal. But the belief in sin is punished so long as the belief lasts."

Matter viewed in the light of Christian Science is seen not to be substantial, for it is not the manifestation of that Mind whose creation alone is incapable of decay. It is contended by some that matter is, directly or indirectly, the creation of God, who is admitted by them to be Spirit. But it should be plain that God, who is Spirit and Life, could not possibly create that which is capable of disease, decay, and dissolution.

To the physical senses matter seems real and substantial. But Christian Science shows that these senses cannot be depended upon to testify to the existence of that which is, in the best sense, real. Paul said "the things which are seen [by the senses] are temporal; but the things which are not seen [by the senses] are eternal." So Christian Science shows that matter is in fact temporal, destructible, illusive, while the things of Spirit—the ideas of God, or divine Mind—alone are really substantial and enduring.

The teaching of Christian Science that matter exists only as belief, as a concept of the human or carnal mind, enables one to deal more intelligently, hence more successfully, with disease than was possible without such knowledge. For it enables one to see, more clearly than he was formerly able to see, that pain and suffering are not material but mental. Ordinary experience shows that pain is difficult to locate. The senses often make pain appear to be where it is not. Christian Science says that pain is never in the body but always in thought or belief. So the Christian Scientist in his treatment of sickness goes directly to the seat of the trouble. His endeavor is to correct or remove through righteous prayer, or right thinking, the mental cause of the disease.

CAUSE AND CURE OF DISEASE

The teaching of Christian Science relative to the mental nature of disease has to a very great extent changed the world's thought on this subject. Many observing physicians are willing to admit much in this direction; more indeed than some laymen. Physicians of standing have agreed that rage and fear will immediately produce a radical chemical change in the blood. Daily experience shows that acute fear will often be directly expressed in a pale, and anger in a flushed, face. Grief brings tears to the eyes and worry causes insomnia and indigestion. Since we are convinced of the mental causes of these physical effects, does it not seem entirely reasonable to agree with the statement of Christian Science that, primarily, all disease has a mental cause? But Christian Scientists do not contend that all sickness is the result of conscious fear or of willful wrongdoing on the part of the victim. They merely claim that somewhere back of our bodily diseases there are erroneous conditions of thought which must be discovered and corrected before there can be a permanent cure. May not this explain why Christian Science has healed many chronic cases that medicine had failed to cure? Is it not plain that physicians in their treatment of these cases were not getting at the root of the difficulty, because the drugs and medicines which they prescribed could not reach, nor have any effect upon, the mental cause of disease? Can nonintelligent drugs reasonably be expected to influence thought? Could one well expect medicines to have power over such emotions as anger, jealousy, worry, fear, and grief? And yet, even from the medical point of view, these erroneous thoughts are seen to be frequent causes of disease.

Perhaps the most prolific cause of disease is fear. Fear is in fact the greatest enemy of mankind. If one doubts this somewhat radical statement, let him pause long enough to consider some of the things of which people are afraid. They are afraid of weather, food, germs, criticism, failure, and poverty. And the Bible tells us of those who "through fear of death" are all their lifetime subject to bondage. The complete removal of fear from the consciousness of humanity would unquestionably be a wonderful blessing. Christian Science shows that fear is needless. It explains why it is needless. Thus it removes fear. Take the fear of criticism as an example. Christian Science helps one to see that he need not fear criticism. If criticism is just it should be welcomed, because just criticism helps one to correct mistakes. But even when criticism is unjust it need not be feared, because in the last analysis it cannot make much difference what other people think. It is only what we think that should seriously concern us. If what others think is not true it may hurt them, but it cannot harm us if what we think is true. Hence we should be sure that our thoughts are honest, just, pure, loving, considerate, and if they are we need not be in the least afraid of what others are think-

ing about us or about anything.

HEALING FEAR OF FAILURE

Then there is the fear of failure, which seems to follow many persons, almost continuously, from the "cradle to the grave." Christian Science shows that in the realm of reality, in the universe of divine Mind, there can be no such thing as failure. Failure resulting from absolute Principle or from the intelligent reflection of Principle is inconceivable.

It is, even in daily business experience, lack of Principle that causes failure. On the other hand those qualities which insure true success are intelligent activity, energy, health, persistence, faithfulness, honesty, etc. Christian Science shows that these qualities, if enduring, are not personal possessions; they do not originate with the individual and can not be monopolized by him. They are the manifestations of divine Principle, the ideas of infinite Mind. They are, therefore, universal and available to all alike. Every business man and woman knows that next to honesty the quality most needed in the business life is wisdom. "Wisdom," the Proverbs tell us, "is the principal thing; therefore get wisdom: and with all thy getting get understanding."

So after all it is not prestige or power or money or any material thing that insures real success. It is wisdom and understanding. And what the business man needs, first and last, is the understanding of Principle, of Truth, of Love. This understanding shows us that man's real business as the son of God, as the exact image—the conscious reflection—of divine Mind is to express eternally, without interruption and without limit, the might, majesty, dominion, abundance, activity, harmony, goodness, and perfection of his creator.

To be thus employed is to be truly "about the Father's business." That is man's real business. That is your real business. God never made man to be a failure. It is a success. It cannot fail. God never made man to be a failure. The man of God's creating is the very best kind of a success. Knowledge of these facts constitutes real law and power. This divinely bestowed understanding acts as law in your present human experience to annul fear, to remove limitation, to rightly direct your affairs and adjust your relationships. And, remember that "however things may seem, no good thing is a failure and no evil thing is a success."

The fear of criticism and of failure are only two of the many phases of fear from which Christian Science is healing mankind.

In like manner Christian Science enables one to overcome other kinds of wrong thinking, such as envy, hatred, revenge, greed, and avarice, through understanding that these evil thoughts do not emanate from Truth, the infinite, divine Mind; hence they are without real cause or existence.

FALSE LAWS ANNULLED

As has been previously indicated, all sickness does not, even from the Christian Science viewpoint, result from willful sin or from conscious fear. Disease is frequently the effect of generally accepted beliefs of the human mind which have mistakenly come to be regarded as laws. Among these will be found the so-called laws that appear to control the effect of food, climate, contagion, and heredity. Christian Science shows that these asserted laws which claim to hold mortals in bondage and cause them to sicken and die are not real laws. It teaches that these mortal laws may be rendered void and inoperative, through enforcement of the law of divine Truth—which is the law of life and health. And it does not matter how long one of these supposed laws may have been believed in or submitted to, if it can be set aside in its operation in a single instance it is proved not to be law. It is safe to say that Christian Science practice has annulled every so-called "health law"—not one instance only, but in many instances. And Jesus, it will be recalled, healed the sick, raised the dead, fed the multitude, and walked on the water, not in conformity with, but in absolute disregard of, so-called material laws.

From the Christian Science point of view the supposed causes of disease and the diseases themselves exist, or seem to exist, merely in the realm of human belief. They are, so to speak, relatively true, but absolutely false. In absolute Truth, in the realm of divine reality, there is no sickness and no cause for sickness. But through overcoming those beliefs which in human experience seem to, ultimate in sickness and death, Christian Science is gradually leading its students away from belief in and fear of death. "For," as Paul wrote in his epistle to the Romans, "to be carnally minded is death; but to be spiritually minded is life and peace." What is meant by being carnally minded but to believe in the reality of those things which are carnal—matter and evil? And that, Paul says, is death. But to be "spiritually minded"—to understand the reality of that which is spiritual and good—is life. This abiding sense of Life is spiritual and comes to us through right thinking. Jesus said, "This is life eternal, that they might know thee the only true God and Jesus Christ, whom thou hast sent." To know or to be conscious of God through reflecting those ideas that are good and true, is to live, and there is no other real life. Mrs. Eddy understood this when she wrote (Miscellaneous Writings, p. 388):

Thou to whose power our hope we give,
Free us from human strife.
Fed by Thy love divine we live,
For Love alone is Life.

CHRISTIAN SCIENCE PRACTICE NOT MESMERISM.

Some who are not entirely familiar with the teaching of Christian Science believe that its practice consists in the effort of one person to benefit another person by exerting the influence which one human mentality is supposed to have over another. The fact is that Christian Science regards the so-called human or mortal mind as the cause of all discord, including disease, and regards the immortal or divine Mind as the only effectual healer of mortal discord. There is no recorded utterance of Jesus to indicate that he believed His power to

heal the sick and reform the sinner depended upon the exercise of human will. He prayed and taught his followers to pray, "not my will, but thine, be done," and Jesus said: "I can of my own self do nothing. The Father that dwelleth in me, he doeth the works." So Christian Science emphasizes again and again the fact that there is no permanent deliverance from human ills save through the transforming power of divine Love. The action of divine Mind does not depend upon the exercise of the human will, but subjugates and controls it. The truth which Jesus said shall make free, often does and always should touch and transform the consciousness of the sufferer as gently as light dispels darkness. Mrs. Eddy describes this process on page 445 of Science and Health, as "the unlabored motion of the divine energy in healing the sick." Let us make use of the illustration of light passing through the transparency of a window. It is evident that it is the light that destroys darkness, and not the window through which the light passes. So in Christian Science practice it is divine Spirit and not the human mentality which heals sickness and sin. And the Christian Scientist is striving to keep the "window pane" of his thought so clear and clean that it will not obstruct the light.

It should not be supposed that all Christian Science Mind healing is the result of what is known as treatment, either present or absent. Sometimes people are healed in conversation with one who speaks the Word of God with conviction and understanding. Frequently healing has resulted from the reading of the Lesson-Sermons at Christian Science church services, and from public lectures on Christian Science. "He sent His word and healed them." Many persons have been perfectly and permanently healed of chronic cases of so-called incurable diseases by studying the Christian Science textbook. It will be seen that since it is divine Truth that brings freedom from human error, it matters not whether Truth comes to the individual through silent treatment, through the spoken word, or through reading and study. The essential thing is that it comes to the one who is receptive. When it does come to such an individual, it is as certain to displace in consciousness everything unlike itself, as that light will destroy darkness. And what happens when there is a case of Christian Science healing? Merely this: the light of Truth or divine intelligence penetrates the consciousness of the individual sufficiently clearly to dispel, at least in part, the darkness of ignorance, superstition, fear, and sin, and the body responds to the changed state of consciousness. The body cannot do otherwise, for it does not of itself have any power to be sick or to be well. The human body is grasped by, and held in, thought, as surely as the doll or the rubber ball is held in the hands of a little child. How important it is, then, that our thoughts should be controlled by Truth instead of error, by Life instead of death, by Spirit instead of matter. For as Mrs. Eddy says on page 425 of Science and Health, "Consciousness constructs a better body when faith in matter has been conquered."

JESUS, THE CHRIST.

What was it that enabled Jesus to heal "all manner of sickness and all manner of disease" among the people of His time? What did Jesus mean when he said, "Come unto me, all ye that labor and are heavy laden, and I will give you rest"? Surely he could not have meant that there was anything peculiar to the personal Jesus that could give rest and cure; for he later said, "the works that I do shall be also in you." Must he not, then, have meant this: "Come unto the Christ, the true understanding of God, which I declare and teach and that will give you rest"? It was the Mind of Christ that healed, that Mind which was also in Christ Jesus, and it is that same Christ-mind which heals today in Christian Science. There is no other redeemer or savior but the one eternal, immanent, always available, omnipotent, divine Christ. Christ is the way, Jesus was the Wayshower.

It will not be seriously contended that Jesus the Christ used drugs in healing, or that he depended upon matter to facilitate his cures. The gospel record shows that he healed the sick, reformed the sinner, raised

the dead by the power of God, divine Spirit, alone. If this spiritual method was God's way of healing in the time of Jesus, it must be His way now, for God is unchanging. If, on the other hand, the use of drugs is God's way, why did not Christ Jesus use them? If the combined use of prayer and medicine is God's way, why did not Jesus combine them in his practice? It is obvious that if medicine is of itself able to heal, prayer is not a necessary adjunct of the healing art. If prayer is efficacious, medicine is not needed. Christian Science teaches that God's "grace is sufficient" at all times and that His hand is not "shortened that it cannot save." But Christian Scientists do not claim that they never fail in their application of this infinite Science. They realize that they are just beginning to understand and demonstrate Christian Science. In spite, however, of persecution and misrepresentation it has been proved in hundreds of thousands of instances that Christian Science is demonstrable and adequate.

IMMORTALITY OF WORKS

The life of Christ Jesus makes safe the conclusion that he put his work above his words. Although Jesus had sufficient faith in what he said to declare "though heaven and earth pass away, my words shall not pass away," still he also said: "If I do not the works of my Father, believe me not. But if I do, though ye believe me not, believe the works." Perhaps no other figure in history stands out so distinctly as the exponent of the doctrine of works, but in all ages great men and women have been immortalized because of what they did for the human race, rather than because of what they said in doing it. For example, the utterances of Abraham Lincoln have not been excelled in beauty and truth by those of any man of modern times. Yet if the words of Lincoln should be forgotten, he would continue to live in what he did for a stricken race and for a nation whose very existence was threatened. No modern movement more strongly emphasizes the importance of works than the movement which has been built upon the discovery of Christian Science. One cannot be a Christian Scientist unless he is willing to do the works of Christian Science. The way of Christian Science is not a flowery pathway leading to distant Elysian fields of ease and peace. The way of Christian Science is the straight and narrow way of Principle. It leads directly to that harmonious mental activity which constitutes the kingdom of heaven within—right here and now. The life of the genuine Christian Scientist is a life of constant service, and he learns that in serving God and his fellow men he is laboring in the field of eternal Life. The very foundation of the Christian Science church was laid in healing works. Before the Christian Science textbook was published, its author and her early students had already demonstrated the propositions afterwards laid down therein. Since then students of that book in all parts of the world have been able to prove the truth of its teaching by removing sickness, poverty, and other ills from their experience according to definite rules of practice. This book is building for itself and for its author a monument of good works which cannot be destroyed, but which will endure to the end of time as an encouragement to those who are in distress.

ULTIMATE ACCEPTANCE OF TRUTH
Undeniably, however, the tendency of the human mind is to resist that which in any manner differs from the existing order of things. Thus it stands in the way of its own progress. When Marconi announced that he had discovered a method of transmitting telegraph messages without the use of wires, he was scoffed at as a dreamer; but he had faith in his discovery and perseverance in perfecting it, so that, in spite of erstwhile skeptics, the transmission of wireless messages is now an hourly occurrence. When Mary Baker Eddy announced that she had discovered the Principle and law of primitive Christian healing, and that because of this discovery it would become universally possible for the sick to be healed by divine power as in the time of Christ Jesus, her announcement met with ridicule and scorn. But Mrs. Eddy too had faith in her discovery. Yes, more than faith—she had the absolute conviction and confidence begotten of

understanding and demonstration. Therefore, she was not dismayed by the storm of doubt which beat in upon her as the result of her proclamation to mankind. Because she knew her discovery to be genuine, she had the courage and faithfulness to perfect it and give it to humanity in the form of a textbook of demonstrable Science. Little by little, scoffers and skeptics were compelled to admit that there is a power on earth today which heals sickness and sin as it did centuries ago. When the works of Christian Science thus compelled recognition, effort was made to discredit Mrs. Eddy as its discoverer; but this too singularly failed. Today, when there are in different parts of the world more than eighteen hundred Christian Science organizations founded upon the rock of Christ-healing, Mrs. Eddy is justly acknowledged not only as the Discoverer of Christian Science and the revered Leader of the Christian Science movement, but as one of the world's greatest religionists. And Christian Science is gradually coming to be recognized as the re-establishment or restoration of primitive Christianity. As this understanding becomes more general and consequently the resistance to Christian Science Mind-healing lessens, distressing conditions of human existence will continue to be ameliorated until they finally disappear. Each case healed in Christian Science practice makes humanity's burden lighter; and even now, through its beneficent ministrations, those who still feel obliged to doubt are being brought nearer to the light.

Mrs. Eddy has said of her discovery and of its reception, "I have never supposed the world would immediately witness the full fruition of Christian Science, or that sin, disease, and death would not be believed for an indefinite time; but this I do aver, that, as a result of teaching Christian Science, ethics and temperance have received an impulse, health has been restored, and longevity increased. If such are the present fruits, what will the harvest be, when this Science is more generally understood?" (Science and Health, p. 384.)

HOUSING PROBLEM IS SOLVED BY TEL. CREW

ORANGE, Nov. 25—A perplexing housing problem has been solved by the erection of three large tents at the corner of Pine and Palm avenue. The telephone company is taking down the poles and putting in large cables in the district where the new ornamental lights are going in and have fifteen men working for them. Being unable to get a place to board or room, the company rented the ground on Palm and put up three big tents, which have been plumbed and connected with the sewer and electric systems. A professional cook and a large cook wagon has also been added and now the men are comfortable and well cared for. The company is advertising for about twenty more men, and more tents will be erected as needed.

YOUR THANKSGIVING DINNER

Buy Your Meats Early

We have done the best we can to prepare for an Eleventh Hour rush, but you will find it greatly to your advantage to do your buying as early in the day as possible. We want to give each order our careful consideration. No matter when you come, you'll get nothing but A-1 Government inspected meats, but we want to give you perfect service as well as perfect meats.

We still have some excellent corn fattened Turkeys for that big spread Thursday.

Better leave your order tomorrow morning. These are unusually fine birds and Wednesday may be too late.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

STATE IS GIVEN DANGEROUS REDS \$8,384,354.57 FOR ROADS PLOT MURDER OF GERMANS

Some Projects Are Nearly
Finished But Payment
Not Yet Made

WASHINGTON, Nov. 25.—An investigation by Senator James D. Phelan shows that a total of \$8,384,354.57 has been appropriated to California by the federal government to aid in the construction of rural post roads service. Senator Phelan presented the claim of California to the Department of Agriculture, which is in charge of the distribution of the funds under the federal road act. Secretary D. F. Houston has furnished the senator with detailed information on the subject. The report says:

"From the appropriations made by the Federal Road Act, approved July 11, 1916, there has been apportioned to the state of California the following sums: For the fiscal year 1917, \$151,063.92; for the fiscal year 1918, \$302,127.84; for the fiscal year 1919, \$456,167.23; for the fiscal year 1920, \$609,699.32; for the fiscal year 1921, \$763,688.88. In addition, the following amounts have been allotted to the state from the appropriations made by the Post Office Appropriation Act of February 28, 1919, amending the Federal Road Act:

For the fiscal year of 1919, \$1,524,284.30; for the fiscal year 1920, \$2,286,372.45; and for the fiscal year 1921, \$2,291,666.63. A total of \$8,384,354.57, therefore, has been apportioned to California to aid in the construction of rural post roads.

The state authorities in most cases have requested that the payment of federal funds be made on completion of the projects instead of as the work progressed. Several projects, therefore, are in the various stages of completion upon which payments have not yet been made. This department has given final approval to, and has entered into agreements with the state of California for, the construction of 18 projects, for which federal funds in the amount of \$1,524,937.75 have been set aside in the United States Treasury.

Eight Other Projects
Eight other projects have been tentatively approved by the department for which additional federal aid in the amount of \$770,661.65 has been requested. The understanding is that the state has recently made available for the construction of roads a sum aggregating \$40,000,000 in addition to the balance of approximately \$13,000,000 from previous appropriations or bond issues. The state highway commission, of course, is actively engaged in formulating plans for the wise expenditure of these funds as well as the available federal funds.

Furthermore, many engineering and preliminary investigations have been made in connection with projects proposed for improvement in California under the appropriation made by Congress for the construction of roads within, or partially within, the national forests. Since July 1, 1918, 14 investigations have been made of such roads, involving a total of 364 miles.

Ten co-operative agreements, providing for the construction of 214.4 miles of forest roads, for which there is pledged \$587,576.00 of federal funds and \$469,300.00 of local funds, have been entered into with state authorities; final surveys and plans have been completed for 9 projects, involving the improvement of 162 miles of road at an estimated cost of \$2,000,000; and 8 projects aggregating 52.13 miles, at an estimated cost of \$687,850.00 are now under construction."

HUNTINGTON BEACH

HUNTINGTON BEACH, Nov. 25.—The following notice has been sent out to all service men in this vicinity:

"There will be a special meeting of Joseph Rodman Post, No. 133. The American Legion, Tuesday evening, Nov. 25th, at 7:30, in the basement of the Library Building, Huntington Beach, and you are urged to attend. You are also requested to pass the word on to all Service Men you possibly can. Election of officers, and representatives of our Post; appointment of committees; action on several important questions, and completion of organization of this Post will be before the meeting. Signed, Floyd B. Dean, Acting Secretary."

A company consisting of T. R. Canady with his new Ford, C. S. Bundschuh, E. C. Wright and W. A. Will made a trip to San Diego last Wednesday returning Thursday by way of Fallbrook.

C. M. Ramsemer and wife who have been touring the country from Loyal, Wis., pitched their tent over Sunday in the municipal camping grounds.

Carl Bruhan and wife and two children arrived in the city Friday from Dayton, Ohio.

The City Meat Market, which consolidated with the Valencia Market, a short time ago, and which Mr. Marsters bought out has re-opened again with George Weitz in charge for the Anaheim people, so there are still two markets in town.

Mr. and Mrs. Henry Ashman of 303 Tenth street will spend Thanksgiving with friends in Pasadena. Next Saturday is Mr. Ashman's birthday and all arrangements for a good time at his home have been made.

George Hiltz and wife, with their daughter and husband, John Whittell, of Juniata, Neb., arrived last Thursday to spend the winter and possibly a year in this vicinity with the view of locating permanently if the climate is agreeable. They expect to make their home at 323 Alabama avenue.

Mrs. C. W. Warner went to Long Beach Monday as the guest of her cousin, Mrs. Alice H. Herring, returning home Tuesday.

Government Finds Documents
Bringing to Light Big
Radical Scheme

By CARL D. GROAT.

(United Press Staff Correspondent.)

BERLIN, Nov. 25.—Communists of a dangerous type are afoot in Germany.

Their plots for the winter are coming to light. These range from minor demonstrations to organized murder. And, while leaders are innocently declaring that the intentions of both independent socialists and communists are peaceful, the government is constantly rounding up documents proving that at least among certain groups of communists, there exist plans of the bloodiest nature.

Government disclosures leave little room for doubt that some of the wilder spirits among the Spartacists proposed to form a murder-bund that would do away with political opponents.

For instance, Munich newspapers, Prussian Minister-president Hirsch, and the military are authority for revelations in the closing days of September showing that among other things, the Spartacists planned the following:

(a) To do away with a large number of officers and soldiers in Munich, slaying them as they slept; (b) that a group of reds from Munich proposed to blacklist a number of prominent officials, draw lots and then "put away" the condemned; (c) that, particularly in Munich, plans were afoot for creation of red "shoot troops" to use against the regular military—particularly against monarchistic officers; (d) that in cases of demonstrations, women and children were to be put in the fore ranks to shield the cowards behind from the machine guns of the government troops; (e) that the communist government should ally itself with the anarchist-syndicalist groups.

Adopt New Tactics
All evidence at hand in the past few weeks has shown quite conclusively that the Spartacists and the Independents were endeavoring to prove conclusively to Germany and to the world that they had moderated. Certainly, in general, they adopted a new course of tactics from that pursued last winter and spring when rioting and bloodshed were the order of the day. Their new course appeared to consist in fomentation of strikes and other internal troubles with a view to so embarrassing the government and hampering the national life that the existing regime would be overthrown.

Now, however, the evidence of the government contained in documents seized from imprisoned Spartacists shows that whereas sabotage and kindred weapons were probably favored by the bulk of the communists there was another group that believed in "direct action" of the worst sort.

The murder of Government Inspector Blau in August led the government to probe even more deeply than before into the secret workings of the communists group. This general investigation led to a number of arrests, including the haul at Halle, wherein about a dozen of very radical strikers were captured. It also proved to the government's satisfaction that Blau was killed by reds who suspected him of being a spy.

Headquarters in Munich
Munich continues to be a fruitful source of communist agitation. Some of the reddest of the reds have their headquarters there. From these headquarters issue secret orders, which every now and then fall into government hands and prove that not only are these agitators willing to harm, and even halt, the national industrial life, but have no really sincere desire to benefit the laboring men. Instead, it has been shown, the agitators are fattening on proletarian funds, some of which emanate directly from Bolshevik Russia, and others of which are collected from the "brethren" in Germany, Austria and Czechoslovakia.

Part of the program of these agitators is to give their course an air of respectability by recruiting "intellectuals."

One set of documents obtained recently shows that orders were out for the radical press to cease making any harsh attacks upon the government "in order to lull the officials into a sense of security." The same set of orders declared that the "intellectuals" must be organized, and that their aid must be obtained in furthering the communist cause.

An intellectual is who in the United States would be called a parlor Bolshevik. Many of these people, who honestly believe in the cause they preach, are being used as tools of paid, professional agitators who work with poison, guns and propaganda to upset the existing order and to supplant it with a new regime, according to government evidence.

How widespread the membership in the "murder centrals" was, is not entirely evident at this time. Communist sources claim that these groups did not represent the sentiment and the intentions of the rank and file. The government, on the other hand, contends that these groups and their plans were certainly sufficiently strong to plunge the country into a reign of terror this winter, and perhaps the germ of communism actively to the rest of Europe.

Subject to Croup

"When my son Charles was about eight years of age he was subject to attacks of croup and I never felt safe without a bottle of Chamberlain's Cough Remedy in the house. That remedy when given according to the directions relieved him immediately. I can not praise Chamberlain's Cough Remedy too highly," writes Mrs. Charles London, Clayville, N. Y.—Adv.

The natives of Calabar, West Africa, have a curious custom of preparing their women for marriage. When a girl reaches the age of fourteen to sixteen the parents begin their preparations. The natives' idea of beauty in their brides is stoutness—the stouter a girl is the more beautiful and charming she is in the bridegroom's eyes. Therefore for at least four months she is made to live in a small room in a mud house and not allowed any exercise of any kind. She is fed at any and every minute of the day so that she can possibly eat. The thin, hungry-looking girl who was enclosed four months earlier emerges with difficulty at the end of the period, a huge woman, reminding one very forcibly of the fat woman in the circus.

YES, SURE—I will be glad to give a few reasons why I trade at the Alpha Beta Stores.

- (1) The pleasant smiles you get when you enter the stores.
- (2) The goods are so arranged that a child can find them as well as the parents.
- (3) The prices are marked plainly on every article.
- (4) The goods are always fresh and clean in every respect.
- (5) The men in the rear dressed in white are always ready to carry the goods to the cashier.

(6) And here is where I am always puzzled, to figure why I get so much goods for so little money.

(7) Next come the good looking fruit and vegetable boys and the smiling butcher boys. It is impossible to pass them by because you have so much change left after buying your groceries that it takes an extra tray to carry the fruits, vegetables and meats.

(8) On your way home you see again how much goods you have and you think there has been a mistake, but after taking them into your kitchen you find a little slip of paper with figures on it showing exactly the price of each article. This is done by the adding machines which are always correct.

(9) A dollar saved is a dollar earned, so, if you are one of that kind who like to have your dollars go as far as possible, just try the Gerrard plan.

(10) Don't be backward about examining the Alpha Beta Stores. Go and see for yourself, for you will be greeted by the same cheerful smiles, whether you BUY or not.

SHOPPING TRIP GROVE BOOSTERS OF RUSSIANS HARD WORK BACK SEPARATE LIBRARY PLAN

Sometimes Housewives Stay
Away Week Hunting For
Low Prices

Advance Reasons Why Super-
visors Should Adopt 'Sec-
tion 2' Scheme

NOVOIRSSISK, South Russia, Nov. 25.—When a housewife in south Russia leaves on a shopping trip she takes a traveling bag along. Because to make an economical success of it she may have to be gone a week and cover a hundred miles of territory.

Conditions in a few of the larger cities which Denekin has wrested from the bolshevists are becoming fairly stabilized but in hundreds of the smaller villages the utmost economic chaos prevails.

Prices vary widely in different towns and the rouble never has the same value in two adjoining villages. So the thrifty housekeeper, buying a week's supply of potatoes or firewood, or seeking cloth for the children's clothes journeys from town to town seeking the best bargains. The high cost of living is just as much a burning question in south Russia as it is in America, but reliable information on the cost of commodities is not nearly so definite.

Announcements of all sorts are banded about. A traveler arrives in one town and announces that the price of potatoes is two roubles cheaper in the next village. The economical housewives set out for the designated town.

Upon arrival they are likely to find that the price of commodities is even higher than in their own town. But there are always plenty of "straight tips" on the other places further on. So the women journey on, traveling by train, ox-carts or on foot, according to the facilities available, seeking the best prices in a territory covering perhaps fifty miles.

A week's shopping tour is considered a success if a few roubles are saved. But the more physical strain of this heavy competition in economy has been the cause of a great deal of illness, and the American hospital at Ekaterinodar has a number of patients who are listed by the doctors as victims of economical shopping tours.

MUSIC BIG LEVELER DURING JAZZ DANCE

LONDON, Nov. 25.—The justice of the peace of Witham, Essex, is really democratic. He recognizes that when the metallic triangle tinkles one forgets caste, when the guitar twangs, the ukulele wails and the snare drum sounds, a young woman drops class which, says the justice, is only a cloak.

So he is giving public jazz dances and inviting to them the people of Witham of all ranks, so-called. At these leveling functions the daughter of the butcher, the baker or the candlestick maker jizzes with the son of the mayor, the wife of the horseholder with the wealthiest man in the town. It is the first time in history that Tersichore has worn a red cap which looks much like that which tops the Commune.

LEGION POST, ORANGE, TO OFFER POLICE HELP

ORANGE, Nov. 25.—A meeting of the Orange Post, American Legion, has been called for Friday evening for the purpose of discussing the advisability of offering the services of Legion members to the civil authorities of the county in the event of I. W. W. disorders in this section.

While there appears to be no probability that any trouble in this county, the action of Los Angeles county officials, supported by the American Legion, is making a round-up of Reds in that county, is thoroughly approved by most service men, and there is no doubt that the local Legion members would be glad to assist in the event of any appearance of I. W. W. agitators in this county.

The meeting Friday evening will also complete plans for the big American Legion ball which is planned for December 3rd.

NERVOUS PROSTRATION

May be Overcome by Lydia
E. Pinkham's Vegetable
Compound—This
Letter Proves It.

West Philadelphia, Pa.—"During the thirty years I have been married, I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound and it made a well woman of me. I can now do all my housework and advise all ailing women to try Lydia E. Pinkham's Vegetable Compound and I will guarantee they will derive great benefit from it."—Mrs. FRANK FITZGERALD, 251 E. 43rd Street, West Philadelphia, Pa.

There are thousands of women everywhere in Mrs. Fitzgerald's condition, suffering from nervousness, backache, headache, and other symptoms of a functional derangement. It is a grateful spirit for health restored which led her to write this letter so that other women may benefit from her experience and find health as she has done.

For suggestions regard to your condition write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their

F. C. Thompson, J. M. Woodworth and H. A. Lake of Garden Grove are enthusiastic supporters of the separate county library system, as opposed to the contract plan. It is expected that they will be present at a meeting of the board of supervisors December 9, when action on a free county library is expected to be taken. They have submitted to the Register the following article:

"After thorough investigation by the committee from the Chamber of Commerce of Garden Grove, the County Free Library System under Section 2 of the Library State Law of 1911, was urged and most heartily recommended over that of any other system for the following reasons:

"First—Out of 58 counties in this state, 45 have adopted Free Library Systems, 41 under Section 2, and four under contract system. This alone should be conclusive proof.

"Second—We feel that it is the right principle for a county institution to be under the exclusive jurisdiction of the governing board of the county; that the taxable values, outside of cities, taking the county as a whole would make it more easily possible to raise necessary revenue, with burden to none.

Claim Double Tax.

"Third—Under the contract system the cost to maintain must come from the general fund, raised from the entire taxable value of the county, including all corporations. This would result in a double library tax in cities and incorporated towns in the county.

"Fourth—We quote from the opinion of one of the best posted library men in the state, who is working under the contract system, 'It may acquire dangerous instability at any time, as one councilman in the city government can very nearly bring a county service in a public library under Section 16 to rack and ruin.'

"Fifth—Rentals do not build up a library nor develop the stability and permanent usefulness desired and expected of any library system, the ownership of the supply remaining beyond the control of the public service, which ownership reserves the right to terminate the contract and lease at any time. The State of California maintains a state library of 260,000 volumes, which is available through the Free Library System, free transportation service and which, we understand, is not available to city libraries. The university of California works through the County Free Libraries of the state in its educational activities, furnishing books on all subjects taken up in the different farm centers of the county.

Can Pool Funds Claim.

"Sixth—All county schools can pool their library funds, and thereby are enabled to have access to many volumes of school library books, maps, pamphlets, etc., not otherwise available. In one county a school of five teachers received during its fourth year of county library service, over one thousand books, although it had only fifty dollars of library money to transfer to the free county library. The smallest rural school in the same county receives not less than one hundred books. At the close of school all the books are packed and shipped to the county libraries. They are cleaned, repaired and fumigated and ready to send to other schools. An entirely new library each year—no expense—no trouble.

"Seventh—Quoting from a letter from the county librarian of San Bernardino county of recent date, 'Before the County Free Library was started in this county the board of supervisors considered fully all ways of establishing it, and decided unanimously for Section 2, and the working out of the system has fully justified their judgment. The San Bernardino County Free Library was started February 1, 1914, with a tax levied by the board of supervisors of 1½ cents on the \$100.

Give Tax Figures.

"For 1914-1915 the tax was 2 cents, for the 1915-1916 it was 3 cents; for 1916-1917, 4 cents; for 1917-1918 it was 4 cents; for 1918-1919, 3½ cents, and for 1919-1920 it is 4 cents. With this small tax rate we have established branches throughout the county and now have 125 branches, distributing points of service. The county library owns 40,000 books, besides about 6,500 pamphlets, magazines, 2,000 pictures, 1,600 stereographs, maps, etc. We also own a great deal of furniture and equipment. Besides giving the rural communities library service, we have 77 schools, the County Teachers' Library and three cities that maintain their own libraries, co-operating with us for service."

"All of which is submitted, with the expectation the board of supervisors takes favorable action to enable practically every resident of Orange county to enjoy the privileges and benefits afforded by any good library."

MAY TRY TO IMPEACH 3 STATE OFFICIALS

BISMARCK, N. D., Nov. 25.—Whether an effort to impeach three state officials, twice elected to office with the endorsement of the Nonpartisan League, but now at enmity with leaders of the farmers' party, will be made during the extraordinary session of the North Dakota legislature opening today, is a matter of speculation.

The legislature will be Nonpartisan in majority. The officials who may be attacked are: William Langer, attorney general; Thomas Hall, secretary of state, and Karl Kositzky, state auditor.

U. S. OFFICIALS ARE NEEDED IN BERLIN

BERLIN, Nov. 25.—Lack of American official representation in Berlin is causing American travelers considerable embarrassment.

The Spanish embassy representing American interests can sometimes help the traveler; but more often not. It has too much business to handle. And red tape unwinds slowly in Germany.

As a result of this situation, Americans coming here are complaining considerably over the situation. England and France are liberally represented on missions here. America has none. And its interests have to be conserved mainly by the American legations in The Hague and Copenhagen.

Two stranded American sailors reached town recently expecting passports here. They were penniless but expected a lift here. They couldn't get a passport right away; maybe by then.

waiting long enough they might have had one through the Spanish embassy. Probably they passed the border somehow "on their own;" it can be done, but it's unpleasant.

And, at the same time an American business man arrived in with a perfectly good pass, but found he needed to travel to Czechoslovakia to complete an important deal. Could he get his pass amended here? No, he had to travel to Copenhagen and run the risk of losing his business deal through the delay.

These are only sample cases. Daily, Americans with difficulties as bad or worse than those above cited are here, and find that the U. S. A. isn't among those present. They say it should be.

WILD HOLLY RAPIDLY DESTROYED IN STATE

SAN FRANCISCO, Nov. 25.—The Toyon, California's wild holly, is threatened with extinction. Mrs. Bertha M. Rice, secretary of the California Wild Flower league, warned today, asserting that extermination of these Christmas berries can be prevented only by extremely careful handling in the future.

"The breaking and tearing of great branches of berries from these shrubs and trees is a common practice," she said. "The chief offenders are automobilists who, through the public highways Sundays and holidays, sometimes mutilating these trees beyond repair. Another menace is the increased demand for red berries."

STRIKE LEADER FREE AFTER TERM IN JAIL

MELBOURNE, Nov. 25.—The attitude of the commonwealth government in dealing with the seamen's strike is recalled by the release here of Thomas Walsh, general secretary of the Seamen's Federation, after serving two months of a three months' jail sentence and paying a fine of \$1000, imposed upon him for having urged the continuation of the seamen's strike. Walsh's release was brought about by the Australian government's recommendation to the governor-general that he be pardoned.

BOY SCOUTS PLANNING BIRTHDAY CELEBRATION

The National Council of the Boy Scouts of America is inaugurating the most extensive plans in the history of the Scout movement for the celebration of the tenth birthday in February, the week of the 8th to the 14th.

In this plan opportunity is given for schools, churches and the press to appeal to every man, woman and child in America to live the scout rule, "Do a Good Turn Daily," for that one week just as the Boy Scouts do throughout the year.

Word is coming from many sources that scoutmasters are already preparing the most entertaining and informative exhibitions, that arrangements more extensive than those of last year are being perfected by councils and troops for dinner festivities in which the fathers will participate, and many other indications point to the coming of a remarkable week of real scout service.

ALLEGED BOOTLEGGERS ARRESTED BY MARSHAL

FULLERTON, Nov. 25.—Two flashily dressed young men giving the names of Smith and Levy, claiming Los Angeles as their home, were arrested Sunday night by City Marshal Myers on the charge of bootlegging. Two suit cases of whiskey were taken from an automobile in which the two were traveling. They had done quite a little business it is stated, before being apprehended. The city

marshal gave a man some marked money to purchase whiskey from the pair and after the transaction they were placed under arrest. Their price it is stated was \$11 a quart for the booze. They were turned over to the federal authorities at Los Angeles, an officer coming here after them.

INDIGESTION GOES, GONE!

"Pape's Diapiesin" at once
fixes Your Sour, Gassy,
Acid Stomach

Stomach acidity causes indigestion! Food souring, gas, distress! Wonder what upset your stomach? Well, don't bother! The moment you eat a tablet or two of Pape's Diapiesin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful!

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapiesin neutralize acidity and give relief at once—no waiting! Don't stay miserable! Try to regulate your stomach so you can eat favorite foods without causing distress. The cost is so little. The benefits so great.—Adv.
